How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

HEY YOU

FROM ME

2011/08/06

Not Much

Three large, leather-clad bikers entered the truckers' café and walked over to a little old man eating at the counter.

The first biker pushed his cigarette into the man's pie.

The second spat into the man's milk.

The third turned over the old man's plate.

As they laughed and sat down in a booth, the old man stood up from the counter and silently left the diner.

When the waitress came to their booth to take their order, one biker said, "Not much of a man, was he?"

"Not much of a truck driver either," replied the waitress. "He just backed his big rig over three motorcycles!"

EMERGENCY SERVICE AGREEMENT

Date of Loss: 10/7/14 Insurance Co.
Customer: Ching-Ching Gordon Claim No.:
Property Address: #131, 222 Broadway, Oakland, CA 94607

This is a ☑ Home Improvement Contract ☐ Non residential Commercial

Type of damage (check all that apply): ☑ Water ☐ Mold ☐ Smoke ☐ Asbestos ☐ Other

1. PARTIES: This Agreement is by and between Restoration Management Company (hereafter, "Contractor") and the Customer identified above. Customer is responsible for payment to Contractor for services performed at the property identified above (hereafter the "Property").

2. SCOPE: In exception of the Project and Description of the Significant Materials to be Used and Equipment to be Installed, Customer hereby authorizes and directs Contractor to proceed with the recommended procedures to preserve and protect the Property from further damage from time of the time identified above. Customer agrees to provide free and unobstructed access to the Property. Affected Areas: the damage observable upon initial visual inspection is generally described as: Laundry, Hallway, Bedroom

3. CONTRACT PRICE: Customer understands that services are being provided on an emergency basis; however, it may be impossible to provide an accurate estimate. Customer agrees to pay Contractor for the work based upon Contractor's standard and usual charges. For non-emergency services, Customer will be responsible for water, electrical and utility charges.

4. PAYMENT: The Customer represents that Property is insured by the carrier identified above. While there is the assistance of insurance, Customer understands and agrees that Customer is directly liable and responsible to pay Contractor for all services rendered, whether insurance is available. Payment is due upon receipt of invoice unless checked ☐ Other

5. FINANCE CHARGE: Interest shall accrue at the rate of 10% per year for all invoices not paid within 30 days from date of invoice. To add non-Cash-time shall also be an administrative service charge of 5% of all invoices not paid within the same 30 day period. Customer agrees to pay attorney's fees, collection costs, litigation and arbitration costs and expert fees incurred by Contractor to collect past due accounts.

6. EXTRA WORK AND CHANGE ORDERS: Extra Work and Change Orders become part of the contract once the order is prepared in writing and signed by the parties. The order must describe the scope of the extra work or change, the cost to be added or subtracted from the contract, and the effect the order will have on the schedule of progress payments.

7. LIST OF DOCUMENTS INCORPORATED INTO THE CONTRACT: The undersigned acknowledges having received and read the following which are attached and made a part of this Agreement: ☑ Price List, ☐ Estimate, ☐ Cancellation Notice ☐ California Three Day Notice, ☐ Terms and Conditions ☐ Other

Reasonably available: ☐ Yes ☐ No. Fire sprinkling main? ☐ Yes ☐ No

FOR RESIDENTIAL PROJECTS, YOU THE BUYER, MAY CANCEL THIS TRANSACTION AT ANY TIME PRIOR TO MIDNIGHT OF THE THIRD BUSINESS DAY AFTER THE DATE OF THIS TRANSACTION. SEE THE NOTICE OF CANCELLATION FORM FOR AN EXPLANATION OF THIS RIGHT

This is a binding contract. Read carefully before signing. You are entitled to a completely filled-in copy of this agreement signed by both you and the contractor, before any work may be started

Hi

Test
from
Emerald;

Frederick says she was recently driving through the nearby beach community of Union where she saw home goods scattered everywhere.
"Amongst the conches and everything, I saw a doll," she says. "And it was just muddy laying there... and right then it hit me I need to do something for the children."
She says there are a lot of organizations on the Jersey Shore that are trying to provide clothing and shelter to hurricane victims. And rightly so. But no one is thinking about the holidays. I felt we needed to make sure these families have presents for Christmas," Frederick says.
She says trying to help others has turned the tragedy around her into something positive.
"I tell everyone it feels so corny, but I feel so alive right now."
In fact, she says, Jersey Shore Santa may have changed her life.
"I never felt like I knew myself. I kind of slipped into it and it feels amazing. And, quite frankly, I can't see myself doing anything else now."
It's also changed the lives of Beard's four children, who are now preparing lists for Santa.
"I want a Power Ranger," says John Paul. "I want a remote-control car," says Shane, adding, "I just want to make sure Santa makes it to my home."
And thanks to Jersey Shore Santa, he will.

This is a request for final billing. I purchased the above reference property at foreclosure, recorded October 7, 2008 by the King County Recorder However, I was unable to take possession of the property at that time due to the former owner refusing to vacate

I was finally able to take possession and did an inspection of the property on November 22, 2008 The water meter read as follows:

759|59 (last two numbers in blue)

Please send me a final billing for the property Please discontinue garbage and recycling services if they are in effect. I will be sending you an application for new service separately

Thank You,

Duncan K. Robertson

Buyer's Guide to Real Estate

What to expect when searching for property in the [redacted]

The more you know the better -- about the market about the process about your own desires Here are answers to some frequently asked questions from buyers of Methow Valley property

For now I'm just looking Any suggestions?
Call or drop by our office for a map and description of properties on the market Or if you have access to the Web check out our web page at [redacted] for information and property listings. Or if you prefer take a tour with me.

I'm interested in property here Where do we begin?
We'll get together – for about 30 minutes to an hour – so I can listen to your plans and interests. The more articulate you can be about what you want, the better I can help you find it We'll talk about whether you want to be in the upper, middle or lower areas of the Methow Valley, as well as the features that are important to you.

What can I expect from the market in the coming years?
Our research on the local market is first hand and always up to date. Here are a few of our predictions:

Appreciation will continue among properties in the area around Winthrop including Chewuch Wolf Creek Mazama and East County Road due to a very limited supply of available land.

-Real Estate developments such as Edelweiss and Pine Forest that feature established water and power systems will continue to generate good interest [redacted]

-Up to 5 acre parcels in the upper Valley such as Mazama that feature trees views and closeness to the National Forest are particularly hard to locate and will generate tremendous interest among high-end buyers This is also the case in the Wolf Creek and areas overlooking Pearrygin Lake and along the Chewuch River and lake oriented properties having these features are very difficult to find and often sell or go on the market

Homes in the $300,000 plus range have become increasingly attractive to second-home buyers

OK I'm ready to look What happens next?
After our initial meeting we'll visit some properties You'll find me completely prepared We'll have previewed properties that fit your criteria and selected the best I won't waste your time with properties that just don't fit you.

Panko-Crusted Salmon

2010 Barefoot Contessa How Easy Is That? All Rights Reserved

Prep Time:	15 min	Level:	Serves:
Inactive Prep Time:	10 min	Easy	4 servings
Cook Time:	10 min		

Ingredients

2/3 cup panko (Japanese dried bread flakes)
2 tablespoons minced fresh parsley
1 teaspoon grated lemon zest
Kosher salt and freshly ground black pepper
2 tablespoons good olive oil
4 (6- to 8-ounce) salmon fillets, skin on
2 tablespoons Dijon mustard
2 tablespoons vegetable oil
Lemon wedges, for serving

Directions

Preheat the oven to 425 degrees.

In a small bowl, mix together the panko, parsley, lemon zest, 1/2 teaspoon salt, and 1/2 teaspoon pepper. Drizzle with the olive oil and stir until the crumbs are evenly coated. Set aside.

Place the salmon fillets, skin side down, on a board. Generously brush the top of the fillets with mustard and then sprinkle generously with salt and pepper. Press the panko mixture thickly on top of the mustard on each salmon fillet. The mustard will help the panko adhere.

Heat the vegetable oil over medium-high heat in a 12-inch cast-iron skillet or large heavy ovenproof pan. When the oil is very hot, add the salmon fillets, skin side down, and sear for 3 to 4 minutes, without turning, to brown the skin.

Transfer the pan to the hot oven for 5 to 7 minutes until the salmon is almost cooked and the panko is browned. Remove from the oven, cover with aluminum foil, and allow to rest for 5 to 10 minutes. Serve the salmon hot or at room temperature with lemon wedges.

AGP Wastegate Actuator installation instructions for SRT-4

Installation Procedure.

1. Remove the five 10mm bolts holding on the top portion of the heat shield. (You might want to use WD-40 Liquid Wrench or PB Blaster to help in the removal process of the bolts.)

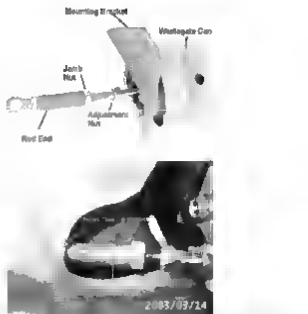
2. Remove factory actuator by pulling the pin out of the flapper arm and taking out the two 12mm bolts holding the body to the compressor housing.

3. Line the new bracket assembly up to the compressor housing and tighten the two 12mm mounting bolts. Hand tight will work just fine.

4. Loosen the jamb nut on the arm so you can adjust the length of the rod end to match up to the flapper arm on the manifold. Pull the flapper arm towards the driver's side of the vehicle so the flapper door is closed.

5. Slip the rod end over the flapper arm and reinstall the pin to hold in place. At this point you want to make certain there is a little tension on the wastegate actuator. Turn the adjustment nut towards the firewall of the vehicle about one full turn.

6. You may need to bend the corner of your heat shield to clear the new actuator and reinstall.



Running the Vacuum Lines:

1. Remove both of the associated vacuum lines from the number 2 solenoid that is located on top of the stock intake box. One line comes from the turbo (green line), the other line goes to the stock MAP sensor (red line). These

MOTOROLA

News we've got. Perfectly timed with [illegible], Motorola's [illegible], wherein our humans try to return Spike Gerke. If you will) to crooning the final [illegible] during the morning. Fx. The Wall Street Journal is reporting that by Tuesday the Motorola stock ticker (MOT) will stop trading, being replaced instead by Motorola Mobility Holdings Inc. (MMI) and Motorola Solutions Inc. (MSI, [illegible]). The latter will focus on public-safety radios and handheld scanners while the former, with a major [illegible] will be the smartphone / set-top box-focused company and for all intents and purposes we mean them we simply write "Motorola" from here on out. Sprint EVO Shift 4G shows up on Walmart's website, HTC teases big in Vegas

By Sean Miller posted Jan 3rd 2011 at 5:16PM

"It's not your dream phone. It's the one after that," reads a January 6th CES teaser from HTC. As one displayed across the side of an entire building for all the CES attendees to see. We can't say for sure what device it's referencing, but we wouldn't be entirely surprised if it ended up being the all-touted sequel to the EVO 4G, right? What the [illegible] Walmart's got a page up for the device, and while the listed specs are heavily contradictory (a 3.7-inch screen that's also a 4.3-inch display? Android 2.2 but no threaded messaging?) the gallery of crisp press shots are definitely a sight to see. Specs legit and all. Enjoy them below, and stay tuned for your next dream phone (does that mean we won't want it until we sign a two-year contract for something else?) this Thursday -- pictures of the inner after the break.

[Thanks, David M.]

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing

- ***Anyone, anywhere*** can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents.
- PDF files ***always print correctly*** on any printing device
- PDF files always display ***exactly*** as created, regardless of fonts, software, and operating systems. Fonts and graphics are not lost due to platform, software, and version incompatibilities
- The free Acrobat Reader is easy to download and can be freely distributed by anyone
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web

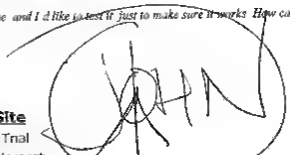
answers to your questions about faxing

« How to Stop a Calls from a Fax Machine?
How to Fix Vertical Stripe On Faxes I Send »

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?



AdChoices

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Hello!

This is a sample test file which is being sent to you as per your request via the Interpage FreeFax(sm) Service!

This service is intended to provide a preliminary evaluation as to the quality and timeliness of Interpage's subscription fax service(s).

If you review the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the TO: field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with this trial fax transmission result.

This file is a sample MS Word file; many other file types are supported.

If you have any questions regarding Interpage's OutFax(sm) Service, including the FaxUnlimited(sm) service with no-per or per-minute charges, please feel free to contact us at:

Phone +1 (510) 315-2750 9AM to 5.30 PM M-F Pacific Time

E-Mail inxl-support@interpage.net

Web http://www.interpage.net

Thank you for your interest!

Notes: 1 Due to the malicious use of the FreeFax service, Interpage will no longer transmit personalized text messages; only the above fixed sample message will be transmitted. You may establish a trial account for evaluative purposes by filling out the form located at *http://www.interpage.net/sub-fax-trial.html*, omitting any billing information, and also by indicating a valid e-mail address and contact telephone number. Please call (510) 315-2750 for additional details.

2 This fax is not a solicitation nor is it an offer. It was sent by a visitor to Inte pages web site who entered your destination number as a recipient of this test fax. A single destination may not receive more than two tests in a given week; however, if you find that someone is sending you faxes in an objectionable manner p lease call us at (510) 315-2750 and we will block your fax number from the FreeFax service.

Image scanner

From Wikipedia, the free encyclopedia

In computing, an **image scanner**—often abbreviated to just **scanner**—is a device that optically scans images, printed text, handwriting, or an object, and converts it to a digital image. Common examples found in offices are variations of the *desktop (flatbed) scanner* where the document is placed on a glass window for scanning. *Hand-held scanners*, where the device is moved by hand, have evolved from text-scanning "wands" to 3D scanners used for industrial design, reverse engineering, test and measurement, orthotics, gaming and other applications. Mechanically driven scanners that move the document are typically used for large-format documents, where a flatbed design would be impractical.

Modern scanner typically use a charge-coupled device (CCD) or a Contact Image Sensor (CIS) as the imaging sensor, whereas older *drum scanners* use a photomultiplier tube as the image sensor. Early forms of color imaging employed a three-pass monochrome system using red, green and blue filters. Color scanners typically read the three components in one pass, though some models still perform multiple passes for greater resolution or color fidelity.

A flatbed scanner with the lid removed to reveal an object (here a leaf) to be scanned

A third category of scanner is digital camera scanners, which are based on the concept of a permanently fixed camera used to capture images of objects that are placed on a flat surface. Digital camera scanners have become an attractive alternative to traditional scanners due to their high resolution and portability, but are still limited by concerns such as poor image quality (affected by poor lighting, camera distortion, reflections, shadows, and low contrast), and post-processing requirements.[1] Digital camera scanners may also refer to scanners that are designed around a digital camera, sometimes including the use of multiple cameras to reduce scanning time.[2] Other digital camera scanners are virtually identical to flatbed scanners, but use a digital camera as the sensor instead of the more traditional CCD or CIS sensor. Some digital camera scanners use a single exposure to capture the entire image, while others capture a series of exposures that are digitally combined into a single image.[3] Higher-quality digital camera scanners often use three exposures, filtering the light for a different primary color for each exposure.[4] Still other digital camera scanners use a single exposure with a beam splitter to direct light onto multiple sensors, each filtered for a different primary color.[5] Digital camera scanners are capable of very high resolutions, sometimes exceeding 10,000 pixels per inch, and can be adapted to unusual sizes and shapes of documents.[6] Unlike most other scanners, digital camera scanners can also capture three-dimensional objects and change focus between different depths within the object being scanned.[7]

Some of the parts of the human eye as seen through a digital camera scanner

In the biomedical research area, detection devices for DNA microarrays are called scanners as well. These scanners are high-resolution systems (up to 1 μm pixel), similar to microscopes. The detection is done via CCD or a photomultiplier tube (PMT).

Configuring your Phone

Configuring via Web user interface

Accessing the Web user interface:

1. Press the **OK** key when the phone is idle to get the IP address of your phone.
2. Open the Web browser of your computer, enter the IP address into the address bar (e.g. http://192.168.0.10 or "192.168.0.10") and click **Enter**.
3. Enter the user name (default: admin) and password (default: admin) in the pop-up dialogue box and click **OK**.

Note: Phone locks user computer in the same network segment of the IP phone (192.168.0.x) to access the Web user interface. Contact your system administrator for more information.

Network Settings: Click on **Network** -> **Basic** -> **Internet Port**

You can configure the network settings in the following ways:

DHCP: By default, the phone attempts to connect to DHCP server in your network in order to obtain its valid network settings, e.g. IP address, subnet mask, gateway, DNS server.

Static IP address: If your phone can not connect a DHCP server for any reason, you need to configure IP address, subnet mask, default gateway, primary DNS and secondary DNS for the phone manually.

PPPoE: If you are using an ADSL modem, you can connect your phone to the Internet via PPPoE mode. Contact the ISP for the account and password.

Note: The wrong network settings may result in inaccessibility of your phone and may have an impact on the network performance. Contact you system administrator for more information.

Account Settings: Click on **Account** -> **Account X** (X=1,2,3,4,5,6)

Parameters of the account:

Register Status:	It shows the register status of the current account.
Account Active:	You can select Enabled/Disabled to enable/disable the account.
Label:	It is shown in the LCD to identify the account.
Name:	It is shown as Caller ID when making a call.
User Name:	It is provided by ITSP for registration. (required)
Register Name:	It is authenticated by for authentication provided by ITSP. (required)
Password:	It is provided by ITSP for registration. (required)
SIP Server:	It is provided by ITSP for registration. (required).

Register status icons on the LCD screen:

THE OLD MANTLE CLOCK

Written by Society Member Shawn McGreevy who has submitted a number of articles for previous issues of *The Old Pike Post*

Until I started doing genealogy research, I was unaware that my childhood home on LaTrine Street in Barton was originally the home of my maternal great grandparents. After my immigrant great grandmother Mary Ann McGimpsey Logsdon died there, her son John Delzell Logsdon stayed on at the house. He was the last person to live there before my parents bought the house in 1962.

When we moved in, many of my great grandmother's things were still there. In particular, I remember the family bible which came with her on the ship from Scotland in 1870. The bentwood rockers she had made for the front porch and an old mantle clock. My parents raised five kids in that old house, and when I left home after college my mother treasured upon me these precious things. I have carried them with me from Maryland through West Virginia to South Carolina and finally to North Carolina. Everywhere I lived the bible and the clock sat side-by-side occupying as special a place in my home as they did in my heart. For as long as I could remember the clock had never worked the bells never chimed and the clock face sat dormant at six o'clock. No clock maker had ever been able to change that fact.

When I was a young girl, I would ponder the beautiful handwriting on the aged bible pages but I was too young to wonder about the lives of those who wrote it. Many years later I realized that my family story began there on those pages and my journey of piecing together my past began.

In life and in genealogy, I believe in karma, so I always try to give as much as I get. Every day I try to do some little thing that might help someone else find an ancestor. And I know that, in doing so, something good will come back to me. With that in mind, one day in May (2009), as I sat in front of my computer wonder what I might do that day, I decided to transcribe the information from the bible. It wasn't long before the was completed and the information was published on the world to see.

An hour less at three o'clock, I heard a strange sound, one that I had never heard in my house de The deep gonging continued and I stood frozen. It the clock. The hair stood up on the back of my neck rounded the corner into the living room. There on book shelf beside the bible the clock hands ticked the bells chimed legs felt weak. Ar knew

I went to my comp and opened the fi page for story McGimpsey Loge and her family. My g were immediately dr to today's date. Ma II was fifty years to day that John De Logsdon the first m set of her family died at our home in ton on May 8 19 was astounded, amazed and a little spooked.

I must tell you I do not believe in ghosts. We least not until that day. But it seemed as if the clock a message for me. Had I done a good thing in pub ing this family information or had I crossed a line? I never know for sure. I can only hope that I did the thing

About a week less I went to the Maryland Arc in Annapolis and looked up the death certificate for Delzell Logsdon. He died at exactly 3 o'clock in the of May 8 1959. Exactly fifty years to the minute that old mantle clock chimed. I was not even a little prised. Are you?

Anyone Interested in Research?

The Genealogical Society has been contacted on several occasions regarding someone interested in doing search in Allegany County. We who staff the Genealogical Library are quite willing to do whatever research we do within the confines of our collection as well as that of Allegany College. However sometimes the request volve more research—like courthouse the surrounding area etc.

If there are those who might be interested in pursuing these leads for others, it would be appreciated if you w contact the Genealogical Society by mail at P. O. Box 3103, LaVale MD 21504 by phone at 301-777-5650, a email <hmoore1@mindspring.com> Thank you.

1.3 LaTeX and pdfLaTeX capabilities

1.3.1 Overview

First you edit your source `.tex` file. In LaTeX you compile it using the `latex` command to a `.dvi` file (which stands for device-independent). The `.dvi` file can be converted to any device-dependent format you like using an appropriate driver for example `dvips`.

When producing `.pdf` files you should use `pdflatex` which produces directly `.pdf` files out of `.tex` sources. Note that in the `.tex` file you may need to use some PDF specific packages.

For viewing `.tex` files use your favourite text editor, for viewing `.dvi` files under X Window System use `xdvi` command, `.ps` files can be viewed with `gv` (or `ghostview`) and `.pdf` files with `acroread`, `gv` or `xpdf`.

1.3.2 LaTeX

A lot of examples can be found in this document.
You should also print

- `doc/latex/general/latex2e.dvi` and
- `doc/latex/general/lshort2e.dvi`

from your `tetex` distribution (usually in

- `/usr/share/texmf` or
- `/usr/lib/texmf/texmf`)

1.3.3 pdfLaTeX

Consult `doc/pdftex/manual.pdf` from your `tetex` distribution for more details. Very useful informations can be found in the `hyperref` and `graphics` package manuals

- `doc/latex/hyperref/manual.pdf` and
- `doc/latex/graphics/grfguide.dvi`

Very smart customer

If you think a document that looks this good has to be difficult to format, think again!

We've created styles that let you match the formatting in this brochure with just a click. On the Home tab of the ribbon, check out the Styles gallery.

Customize in Almost No Time

To try out other looks for this brochure, on the Design tab of the ribbon, check out the Themes, Colors, and Fonts galleries.

Have your own company fonts or colors? No problem! These galleries give you the option to add your own.

We know you could go on for hours about how great your business is. (And we don't blame you—you're amazing!)

But a map you need to keep it short and sweet, here are a few suggestions of what you might include:

- You might try a summary of competitive benefits at left and a brief client success story or some of those glowing testimonials here in the middle.
- The right side of this page is perfect for a summary of key products or services.

Key Offerings

Don't be shy! Show them how fabulous you are. List or summarize key points here about what you do. And here's one more tip for the road:

If you replace a photo with your own and it's not a flawless fit for the space, you can crop it to fit in almost no time. Just select the picture and then, on the Picture Tools Format tab, click Crop.

Key Clients

You might want to mention a few of your most impressive clients here.

- Big, important company
- Really well-known company
- Very impressive company

Access Mode

Specifies the method by which user access is granted to the system.

Access Profiles

Allows network managers to define profiles and rules for accessing the switch module. Access to management functions can be limited to user groups which are defined by the following criteria:

- Ingress interfaces
- Source IP address or Source IP subnets

ACL

Access Control List. Allow network manager to define class identification sets and rules for specific ingress ports.

Aggregated VLAN

Groups several VLANs into a single aggregated VLAN. Aggregating VLANs enables routers to respond to ARP requests for nodes located on different sub-VLANs belonging to the same Super VLAN. Routers respond with their MAC address.

ARP

Address Resolution Protocol. A protocol that converts IP addresses into physical addresses.

ASIC

Application Specific Integrated Circuit. A custom chip designed for a specific application.

Asset Tag

Specifies the user-defined switch module reference.

Hail Mary:

Today begins the 90th Anniversary of the apparition of the Virgin of Fatima :

When you receive this email say a Hail Mary and ask for a special favor.

"Hail Mary, full of grace. The Lord is with thee. Blessed art thou among women and blessed is the fruit of thy womb, Jesus. Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death, Amen.? (your request)

Please do not break the Novena , send it to 12 people you think deserve justice, peace, love, health, prosperity and truth. When you are down to nothing, God is up to something. This has been traveling since 5/13/07!

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- *Anyone, anywhere* can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes cannot open files because they don't have the applications used to create the document.
- PDF files *always print correctly* on any printing device.
- PDF files always display *exactly* as created, regardless of fonts, software, and operating system. Fonts, and graphics are not lost due to platform, software and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

Chapter 11.

Imperfect Competition

In most industrialized countries there are few examples of Perfect Competition or Monopoly Typically there are firms that operate in Imperfectly Competitive market structure

Two types.

1 Monopolistic Competition (2/3 of all Canadian output is produced by firms of this type)

2 Oligopoly

In PC market – firm is price taker , P = MC, profit = 0 in LR

In M market – firm sets the price, P > MC, profit > 0 is possible in LR.

Imperfect Competition several large firms, that have market power, or many smaller firms, with some market power over their prices

Imperfectly Competitive Markets: Description

a.) Most firms sell *differentiated products*. Differentiated products are similar, but different enough to be sold at different prices. Ex Tide versus Ivory Snow

b.) Since products are not Homogeneous, firms can set the price, but it can not be too high or too low

Because similar products are being sold in the market, D-curves are very elastic!

Firms often set their prices in Imperfectly Competitive market. (in PC firms can not do that)

Administered Prices – are set by the firms rather than the market.

But: market forces still count (shape of D-curve) Demand curve is negatively sloped, therefore firm must decide the price and level of output they want to sell according to D-curve.

Firms have some market power! (to influence the price)

Price setting – is a decision made by the firm according to expectations what could be sold at each price

Quiz for Bright People

There are only nine questions.
This is a quiz for people who know everything!
I found out in a hurry that I didn't. These are not trick questions
They are straight questions with straight answers

1 Name the one sport in which neither the spectators nor the participants know the score or the leader until the contest ends

2 What famous North American landmark is constantly moving backward?

3 Of all vegetables, only two can live to produce on their own for several growing seasons All other vegetables must be replanted every year What are the only two perennial vegetables?

4 What fruit has its seeds on the outside?

5 In many liquor stores, you can buy pear brandy, with a real pear inside the bottle The pear is whole and ripe, and the bottle is genuine; it hasn't been cut in any way How did the pear get inside the bottle?

6 Only three words in standard English begin with the letters 'dw' and they are all common words. Name two of them

7 There are 14 punctuation marks in English grammar Can you name at least half of them?

8 Name the only vegetable or fruit that is never sold frozen canned, processed, cooked, or in any other form except fresh

9 Name 6 or more things that you can wear on your feet beginning with the letter 'S'

Costco Road Hazard Warranty

TO QUALIFY FOR THIS WARRANTY:

1. You must be the original purchaser of the tires
2. You must have purchased the tires from Costco Wholesale.
3. You must present the original purchase receipt and tire to a Costco Wholesale Tire Center

CONDITIONS OF THIS WARRANTY:

1. The Purchaser must rotate and balance their tires at outlined by the vehicle manufacturer
2. The Purchaser must operate their tires at inflation pressures outlined by the vehicle manufacturer
3. The Purchaser must keep all mechanical parts that effect tires in proper working condition
4. The Purchaser will be required to sign a "Costco Wholesale Tire Adjustment Form"

WHAT IS COVERED

1. "Road Hazard Failure" is defined as a tire that becomes unserviceable due to cuts, non-repairable punctures or impact damage. Costco Wholesale will repair tires with tread-base injuries in accordance with established RMA (Rubber Manufacturers Association) standards
2. This warranty covers road hazard failure on Passenger, Performance and Light Truck tires purchased from Costco Wholesale.
3. This warranty is valid for either sixty (60) months from the date of purchase or when the tire reaches 2/32 of an inch or less in remaining tread depth (whichever comes first).
4. This warranty provides credit based upon remaining usable tread at the time of failure due to road hazard.
5. "Usable Tread" is defined as the original tread depth of a tire less 2/32 of an inch (tread wear indicators)
6. Credit is determined by multiplying the usable remaining tread by the current price of the tire
7. This Warranty is a promise under certain conditions to give credit on a prorated basis towards the purchase of a new tire. This warranty does not imply that tires sold by Costco Wholesale meet certain specifications or cannot fail. This Warranty does not replace or modify any original tire manufacturers warranty on material and workmanship

WHAT IS NOT COVERED

1. A tire that is damaged / failed due to vandalism
2. A tire that is damaged / failed due to an accident
3. A tire that is damaged / failed due to commercial use.
4. A tire that is damaged / failed due to racing.
5. A tire that is damaged / failed due to Off-Road use
6. A tire that is damaged / failed due to snow chains or studs
7. A tire that is damaged / failed due to any abnormal wear
8. A tire that is damaged / failed due to wear from worn mechanical components on the vehicle.
9. Tires transferred from the vehicle on which they were originally installed
10. Loss of time, inconvenience, loss of use of vehicle or consequential damage. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply

TIRE CARE RECOMMENDATIONS:

1. *Have the air pressure in your tires checked by a tire professional at least once a month. Serious injury may result from tire failure due to under inflation.*
2. *Always request that the inflation pressure in your tires be set to the tire or vehicle manufacturers specifications.*
3. *Do not overload your vehicle. Serious injury may result from overloading your vehicle.*
4. *Register your tires using the DOT (Department Of Transportation) card provided at the time of purchase*
5. *Read and follow all tire maintenance requirements outlined in the Tire Manufacturers Warranty booklet provided at the time of purchase.*
6. *Always insist on an RMA (Rubber Manufacturers Association) approved two-piece tire repair. Fraudulent*
7. *Fix-a-flat products should not be used. These products void some manufacturer warranties. Costco will not perform tire repairs on tires where Fix-a-Flat has been used*
8. *If you are purchasing less than four tires, install the new tires on the rear of the vehicle*
9. *It is recommended to have your lug nuts re-tightened 25 miles after your tires are serviced or replaced*
10. *Request that your tire and rim assemblies are hand torqued with a calibrated torque wrench to the vehicle manufacturers specifications*
11. *Have your tires inspected by a tire professional at least once a year*

Test your fax machine without bothering friends

Submitted by Adam on October 16, 2006 — 2:35pm

Have you ever had a telephone installed to send a fax machine and wondered whether it actually worked correctly? It is always tough making a fax because you have to have a friend who is home, awake, and willing to help. Thanks to a conversation you and I had in Britain, email and the world.

This site lets you enter a fax number and, in a few minutes, you will receive a test fax.

How to Use It
1. Enter your fax number in the box below.
2. Click "Fax Me!"
3. Wait a few minutes.

How Can I Trust My Fax Machine?

Submitted by Smart Computer User on September 9, 2006 - 12:00am

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-510-515-9390 (whatever in Northern California). When it's done transmitting, point your web browser to Fax Tay http://faxtay.net/. It'll turn over a few brief progress updates to Twilio so that number knows it exists, your fax at least appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to Receiver http://faxreceiver.net/ the site lets you send faxes for free to anywhere in the United States and Canada (within — how amazing, your fax machine) simply enter [illegible]. It will automatically answer and wait out the last ring.

Cool, you 3 beer!

Submitted by Smart Computer User on October 20, 2006 - 3:40am

Didn't have to admit to me that I might have broken the fax machine!

[illegible]

That was great!

Submitted by Smart Computer User on October 4, 2006 - 1:49pm.

Reliable also I know would want me having them at 12:47 AM. Thanks for the info.

Still Having! read the first post

Submitted by Smart Computer User on September 27, 2006 - 9:29am

Sent one page, received white text on [illegible]phone (1 866 403 3963).
When your fax is received by the HP Fax Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

[illegible]

Thank you - It worked for me too.

Submitted by Smart Computer User on September 26, 2006 - 8:49pm.

Thank you very much. This worked for me

Testing

Tail the server2000XXXX.log file and confirm that the first part of each debug/error message begins with a package.service.description prior to the actual message

1 Import an SAP Purchase Order containing an attachment for BP Reroot with generating various error conditions:
a) Create an empty MIME part
b) WL is not available
c) Remove the Index number for one of the attachments within the body of the PO information
d) Remove all references to attachments in the body of the PO, but leave the attachment information in the MIME parts
2 Import an SAP Purchase Order containing no attachments
3 Import an SAP Purchase Order Change request document Reroot with guaranteeing an exception by removing the Index number from one of the attachments
4 Import an ATK using "on_receive" as the entry point in the file poster
5 Export an SCS to BP Import an InvoiceAck/Acknowledgment and trigger the invoice export which creates a mocked up InvoiceAck import Verify log messages for the mocked up invoice acknowledgment

How to Apply

1 Import the following packages into all servers in the cluster:
PurchaseOrderSAPImport.zip (v 1 20)
PO.zip (v 1 74
SCSSupplierConnectImport.zip (v 1 25)

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do this

Calling Fax for as little as $7.88/mo.

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-800-377 1455 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax.Toy . It's a fax web site that displays whatever is faxed to that number. Within a minute your fax should appear on the site. Click the thumbnail to see a large number

To test the receive functionality of your fax machine, point your web browser to FaxGate; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax

Welcome to

Windows® Fax and Scan

One place to scan and fax your documents

FAX: You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax.**

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server, income of a modem, connect your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN: After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan.**

3. On the toolbar, click **New Scan.**

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

TODAY FEBRUARY 8th (JokesAndTrivia.com)

Yesterday at church a lady from the congregation was presenting the children s sermon She walked up to the front of the church and said "May I have all of the children?"

As the children walked forward several parents responded "Yes."

One quick-witted father asked "For how long?"

Maturity - Useful Advice!

^ I've learned that whatever hits the fan will not be evenly distributed.
^ I've learned that no matter how much I care some people are just jerks.
^ I've learned that you shouldn t compare yourself to others – they are more screwed up then you think.
^ I've learned that we are responsible for what we do unless we are celebrities.
^ I've learned age is a very high price to pay for maturity
^ I've learned that artificial intelligence is no match for natural stupidity
^ Finally I've learned that I don t suffer from insanity I enjoy it!

A man sat down at a bar looked into his shirt pocket, and ordered a double scotch.

A few minutes later, the man again peeked into his pocket and ordered another double This routine was followed for some time until after looking into his pocket, he told the bartender that he s had enough.

The bartender said "I've got to ask you what's with the pocket business?"

The man replied "I have my lawyer's picture in there When he starts to look honest, I've had enough."

EPSON
EXCEED YOUR VISION

Congratulations, you have successfully installed your new EPSON printer!

Here are some tips for getting great prints:

- Genuine EPSON inks have been engineered to deliver stable, long-lasting photographic quality when used with EPSON papers.
- To protect your photos, frame them under glass or store them in archival sleeves or albums. Your prints will last for generations!
- Epson offers an extensive line of specialty papers that provide outstanding results when used with EPSON printers and genuine EPSON ink.
- For best results, make sure the paper type selected in your printer software is right for the type of paper loaded in the printer. See your documentation for more information.

Prayer to St Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord: so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath St. Joseph Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known

to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ In 1500's it was sent by the Pope to Emperor Charles when he was going into battle

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere

Imprimatur
Most Rev George W Ahr
Bishop of Trenton

were in -- even if it meant cutting into an eight hour sleeping block Once they arrived at the ballpark Montes would set up a quiet area where they could sleep before the game Players said that, thanks to this schedule, they felt great both physically and mentally over the long haul

Strategic napping in the Rangers style could benefit us all No one argues that sleep is not essential But freeing ourselves from needlessly rigid and quite possibly outdated ideas about what constitutes a good night s sleep might help put many of us to rest in a healthy and productive if not eight-hour long, block.

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here is how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-510-545-0990 (a number in Northern California.) When it is finished transmitting, point your web browser to FaxZero — it is a fax web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero, this site is you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

TUESDAY 2010 Michael Vick Football Camp Meet & Greet

Philadelphia Eagles QB Michael Vick

Farrell Hampton
Reach/Hampton University
Fellow football and Michael Vick/Philadelphia Eagles fans the 2010 **Michael Vick Football Camp Meet and Greet** will be held tomorrow June 22, 2010 from 4-8 p.m. at the NASCAR Sports Grille in Hampton, Virginia. The 2010 Michael Vick Football Camp will be taking place on the campus of Hampton University from June 23-25. The three-times NFL Pro Bowl and Hampton University's football Coach Donovan Rose will conduct a question and answer session regarding the camp.

So far two current NFL players with ties to **Hampton University**—Jacksonville Jaguars middle linebacker **Justin Durant** and Miami Dolphins defensive end **Kendyll Langford** are confirmed for the event. Plus **Aaron Brooks** (University of Virginia) retired NFL quarterback for the New Orleans Saints and Vick's special project will be there

Michael Vick and Coach Donovan Rose are hosting the meet and greet and it will be broadcast on the **Tony Mercurio** aired "The Sportman" show as he will be at the Sports Grille and The Sportman program is on ESPN Radio 94.1 FM (Hampton Roads) between 3 and 7 weekday afternoons, and is where listeners turn for sports talk.

The event is free and open to the public. The NASCAR Sports Grille is located at 1900 Power Plant Parkway, Hampton, VA 23666, Telephone:757 224.5802.

Important

Open Enrollment is Earlier this Year!

With the healthcare law, Medicare is stronger than ever.
Here's what you'll find in 2012...

More Benefits: You can get more prevention benefits often at no cost to you, including certain cancer screenings and a Yearly Wellness Visit

Better Choices: 99% of you have at least one Medicare Advantage Plan in your area

Lower Costs: Average premiums for Part D drug coverage won't rise in 2012, and premiums for Medicare Advantage Plans will drop an average of 4%. And people who are in the Part D coverage gap will get a 50% discount on covered brand-name drugs.

CMS Product No. 11565

Medicare Open Enrollment Ends December 7th

The H story of the Copier

Chester F Carlson invented the Xerography process. He was born on February 8, 1906 in Seattle and earned his Bachelor of Science deg ee in Physics from the California Institute of Technology in 1930

He noticed that there were only two choices at the time to get more copies a)the ampl tim process out to be photographic or laborously write new ones Both methods proved to be very expensive and time consum ng. So, he turned his attention to the field of photoconductivity. Carlson realized that if the image of an original photograph or document were projected onto a photoconductive surface, current would only flow in the areas that light hit upon. The print areas would be dark and not allow any current to flow

Carlson set up his laboratory in Astoria, Queens and hired the German physicist Otto Kornei to he p him out. One day Otto took a s hc plate and covered it with a coating of finely prepared sulfur He then wrote 10-22-38 Astoria" on to a microscope slide n India ink. The room was darkened The sulfur was rubbed with a handkerch ef to give it a charge The slide was then placed on top of the sulfur, and plaintd under a bright light for a few seconds The Slide was then removed and the sulfur surface was covered with lycopod um powder (the very spore from club moss)

which one giant breath of air, the lycopodium was blown off the sulfur surface And there it was an almost neat mirror image that said 10-22-38 Astoria " The resulting was a tre serving the image. Carlson took was paper and heated it over the remaining powder The was cooled around the spores and was then peeled away. The first photocopy had been made

In 1944, the Battelle Memorial institute, a nonnrofit organization that invested in the outcome of research signed a royalty-sharing deal w th Ca rlson, giving him a 40% share. They developed a new photoconductive plate, a new place the coronn wire, a brush dry ink, and the toner On January 2 1947 Battelle signed a licensing agreement with Haloid a manufacturers of photograph c products that was looking for new technology to develop Battle a and Haloid demonstrated electrophotography to the world on October 22 1948 ten years to the day after Carlson's first successful experiment. The first photocopiers were introduced in 1948 An Ohio State professor suggested another name for the electrophotography process, xerography from the Greek words xeros for "dry" and graphos for "writing." Haloid named its first photocopier the XeroX Model A and to just pla a old Xerox In 1961, In 1959 Haloid introduced the Model 914, the first fully automated photocopier

What This Cardholder Agreement Covers

This Agreement sets out the terms under which you may use your RBC Royal Bank® Credit Card, it replaces all previous RBC Royal Bank VisaAdvantage® or MasterCard® Agreements and applies if we send you a renewal or replacement Credit Card. This Agreement also governs RBC Royal Bank Credit Card Cheques and your RBC Royal Bank credit card Account.

When this Agreement refers to "you" or "your" it includes each person who signed or submitted the Credit Card Application, whose name is on the Account, or to whom a Credit Card or the Account has been issued. Each Credit Cardholder on the Account will have its own unique card number (other than an Authorized User). This includes more than one person "you" means each one of you. All of you are, individually and together, responsible for and bound by this Agreement. This means that each of you is fully responsible for all transactions on the Account, irrespective of which one of you incurred or which Credit Card was used to incur any particular charges. You are also responsible for any other expenses or liabilities under this Agreement that may have been owing on your Account at the time your Credit Card is issued.

"You" and "your" do not include Authorized Users unless otherwise indicated. An Authorized User is a person to whom we have issued a Credit Card on your Account at your request. The terms under which we will issue a Credit Card to an Authorized User are set in the "Authorized Users" section of this Agreement. While your Authorized Users will have the convenience ability to charge transactions to your Account as you do, you will be responsible for all amounts owing on your Account, including amounts charged by Authorized Users. You are also responsible for ensuring that all of your Authorized Users comply with the applicable terms of this Agreement.

If you allow someone else including an Authorized User to use your Credit Card or your Account number you will be liable for any charges incurred by that person even though that person did not have your permission to do a particular one, unless we advise. When this Agreement refers to "we", "us" or "our", it means Royal Bank of Canada and companies under RBC®.

This Agreement is your promise to pay amounts owing on your Account. You should read it carefully as it explains your rights and duties. We suggest you keep a copy of it with your Card or your Account number by you as an Authorized User requires that you have received and read this Agreement and agree to and accept all of its terms.

By accepting this Agreement you have requested the benefits and services provided automatically with Credit Cards. Different types of Credit Cards come with different features. Some of these features are highlighted later in this Agreement. The Welcome Kit you received with your Credit Card outlines the benefits and services which you can enjoy. We may change any of these features at any time.

Third parties will provide some of the benefits and services outlined in your Welcome Kit. These third parties, and not us, are responsible to provide the services and benefits offered as provided by them.

Optional features are available to an additional cost to you. If you request any of these optional features, we may send you a separate agreement outlining any additional terms and conditions.

Your Choice of Language

When you apply for your Credit Card, you indicated whether you wanted us to communicate with you in English or French. We will respect your choice in all our correspondence with you. If you "contract" like a merchant this Agreement in the other language we would otherwise provide in that case such as the other language please let us know.

Your Rights and Interest as a Customer Using Your Credit Card

You can use your Credit Card and your Account number for any permitted purpose including:

- paying for goods and services, whether you buy in person, over the phone or the Internet or by mail order;
- making cash withdrawals at our cash branches, at another financial institution or at a banking machine (ATM) which is part of this Agreement;
- writing cheques using Credit Card Cheques we provide for this purpose;
- making advantage of a balance transfer offer by transferring all or part of a balance you owe elsewhere to your Account, through our online banking service or by calling our Credit Customer Service at 1-800-ROYAL-1 2 (1-800-769-2512).

A Credit Card issued on your request may only be used and directed by the person (either you or an Authorized User) whose name is on the Card. You must not use your Credit Card or account number for any illegal, improper or unlawful purposes. We also reserve the right to prevent your Credit Card or your Account from being used for certain types of transactions as determined by us, including transactions connected to internet gambling. When you or your Authorized Users use a Credit Card or your Account number for a transaction, we are inviting you to the amount of and your Account number. Each transaction is Cash Advance as the case may be "Cash Advance(s)" we mean when you withdraw cash from your Account, use a Credit Card Cheque or make a balance transfer. Cash Advance transactions and/or bill payments that is not a pre-authorized payment that you agree with a merchant. You are liable for and must repay all amounts owing on your Account. The total you owe includes all purchases, Cash Advances, interest and fees. All of these amounts will be shown on your monthly statements.

Mail Order, Phone or Internet Sales

When you pay for goods or services using your Account number without showing your Credit Card, you will have the same responsibilities as if you had shown your Credit Card. Credits arising from returns or adjustments are generally first applied to transactions of a similar type, posted to any interest rate you have and the remainder to other amounts owing in the same manner as we apply payments in respect of the minimum payment.

Your Credit Limit

Your initial or increased credit limit appears in the information box accompanying your Credit Card. This is the maximum amount which we allow you and your Authorized Users, either together, to charge to your Account to cover purchases, Cash Advances, interest and fees.

As the charges on your Account increase, the amount of credit available for you to use will decrease. We calculate how much credit you have available by deducting from your credit limit the amount you owe and including the amount of any purchases we have authorized but not yet posted to your Account.

We may from time to time allow the amount you owe us to exceed your credit limit by authorizing transactions in excess of your credit limit. But we cannot force you to authorize it when your New Balance exceeds your credit limit. RBC Visa Infinite® RBC Infinite Avion® RBC Infinite Visa Infinite and RBC Visa Infinite Business are not charged an Overlimit Fee. We may, at any time, refuse to authorize transactions in excess of your credit limit and require you to pay any balances which exceed your credit limit.

Your monthly statement shows your current credit limit as well as your available credit. If you consistently make late payments – or make no payments at all – we may reduce your credit limit. From time to time, we may ask you if you want your credit limit increased. We will not increase your credit limit without your express consent to do so. You may also ask us at any time to review your eligibility for a credit limit increase.

Some statements require that purchases be pre-authorized. Your available credit will decrease by the amount authorized, however we will not receive goods or services to that time.

Determination of Interest

You have a minimum 21 day interest free Grace Period for new purchases. Your new purchases for each month are those which appear in the Activity Description of that month's statement (your Current Statement). You will be billed interest on purchases by applying the New Balance shown on your Current Statement's Payment Due Date. You have to pay interest from the date of all purchases, Cash Advances, interest and fees incurred up to the date you Current Statement was prepared.

If you do not pay your New Balance in full on or before the Current Statement's Payment Due Date, you must pay interest on each new purchase appearing on that statement retroactively from the transaction date until the day we receive payment in full for those purchases. Your next monthly statement will include interest accrued on each of those new purchases from the transaction date to the date we prepare that next monthly statement.

We will continue to charge interest on the unpaid portion of those new purchases until the next time you pay the New Balance in full on or before its Payment Due Date. Interest related to your purchases could appear on the first statement you receive after you have not paid your New Balance in full on or before the Payment Due Date. Interest is charged because you did not pay the New Balance shown on your Current Statement in full by the Payment Due Date. If your New Balance was prepared as of the date you made your payment.

Fees are treated in the same manner as purchases for the purposes of charging interest. The transaction date for a fee is the date that the fee is posted to your Account. Cash Advances are treated differently from purchases and interest begins from an advance the grace period – see the section titled "Cash Advances".

We do not charge interest on interest.

The amount of interest we charge you on your Current Statement is calculated as follows:

- We add the amount you owe each day, and divide that total by the total of days in the statement period. This is your average daily balance.
- We multiply the average daily balance by the applicable daily interest rate(s) (obtained by taking the annual interest rate(s) and dividing by the number of days in the year). We then multiply this value by the total number of days in the statement period to determine the interest we charge you.

When there is more than one applicable interest rate, we calculate your interest based on the average daily balances for each rate.

Your Current Statement will show your New Balance, Payment Due Date, transaction and posting dates, and your interest rates, including any applicable introductory interest rates or promotional interest rates.

Cash Advances

Interest is always charged on Cash Advances from the day the Cash Advance is made. Cash Advance Fees or Promotional Fees Rate also apply to certain Cash Advances, as set out in the "Other Fees" section of this Agreement.

All of the following types of transactions are treated as Cash Advances, and we charge interest from the transaction date:

- when you make cash withdrawals from your Account at an RBC branch or ATM, or at any other financial institution's branch or ATM;
- When you use a Credit Card Cheque;
- When you take advantage of a balance transfer offer by transferring all or part of a balance you owe elsewhere to your Account, through our online banking service or by calling our Credit Customer Service at 1-800-ROYAL-1 2 (1-800-769-2512).

BACK

At present a request for density output cards in a densitometric computations run yields density cards corresp[illegible] lenses. If the test code used involves L N D conversions [illegible] separate conversion program to correspon[illegible] corresponding to individual strips are punched wh[illegible] desired.

I prop[illegible] any card output is requested, plotted densities are punched out. In the n[illegible] case it would simply be the average densities If the test code calls for L N D conversion it would be the L N D densities that are punched out. If the test breaks down, e.g. because of range check failure, we would get cards punched out for individual strips since individuals are plotted in that case

I would appreciate your comments on this proposal by January 2, 1971

Why we are boycotting CVS/Chase

CVS/Chase and Armstrong Development are suing the City of Sebastopol over the recent moratorium on new drive-through businesses which will drain a large quantity of money from the city coffers in legal fees (estimated at up to $100,000 initially) The City has in its budget about $60,000 to pay for such litigation The CVS record of civil and criminal misconduct includes

In 2005 CVS paid $19,750,000 to settle a class action suit over illegal labor practices

In 2006 CVS Caremark paid $38,500,000 to settle a case for deceptive business practices filed by 28 attorney generals Also in 2006 CVS Caremark was in court over corruption charges for which a Rhode Island state senator was sentenced to 2 years in prison

In 2008 they were charged with failure to protect patient privacy in violation of federal law and in a related suit paid $2,250,000 to settle a Department of Health and Human Services claim for failing to protect patient privacy under the Health Insurance Portability and Accountability Act

In 2010 they were served with a subpoena due to the business practices being under investigation by twenty four states regarding their customer incentive programs Also in 2010 CVS Caremark was sued by members of the American Pharmacies group in Texas under the Racketeer Influence and Corrupt Organizations Act (RICO) over their requiring patients to buy maintenance medications only from CVS

In 2011 they were sued in Federal Court by pharmacies in North Carolina for threatening to raise co-pays on patients who used independent business to fill prescriptions. Also in 2011 a nation-wide class action suit was filed over billing fraud in which CVS was taking cash at the time of sale and then double billing customer's HSA's

That year they paid $17,000,000 to settle a related whistle blower case for fraud

In 2012 they paid $5,000,000 to settle Federal Trade Commission charges over misrepresenting prices of certain Medicare drugs Also in 2012 they settled a $13,000,000 suit filed by the Ventura County DA for extensive mishandling of toxic waste

JP Morgan Chase received $64.7 billion in bail out funds of which $64 billion is still on the backs of tax payers Since 2009 their executive bonuses fees and credit card interest rates continued to grow while record profits were posted and lending declined They are among the leaders in home foreclosures and are currently being sued by the New York State Attorney General for fraudulent foreclosure practices They are now under criminal investigation by the FBI over their recent derivatives trading

CVS and Chase are two corporations with well documented records of finding it more profitable to engage in illegal practices and pay tens of millions of dollars in civil and criminal fines annually rather than change their business tactics If you are concerned about big box stores (whose profits do not stay in Sonoma County) displacing local merchants or about increased congestion and mall blight at the center of Sebastopol please join us in urging CVS/Chase to drop their law suit against the City of Sebastopol and to remain in their current location Many residents of Sebastopol are boycotting them until they agree to do so

Thank you

NEW YORK CITY DEPARTMENT OF FINANCE – PAYMENT OPERATIONS DIVISION

NYC Finance

REAL ESTATE PAYMENT AGREEMENT REQUEST FORM

ALL INFORMATION MUST BE COMPLETED FOR THE APPLICATION TO BE CONSIDERED

You may bring your completed application to one of Finance's five Business Centers or mail it to:
NYC Department of Finance, Payment Agreements, 59 Maiden Lane, 19th Floor, New York, NY 10038.
No payments are accepted at this address. For information about payments, see Section C - "Making Payments" below.

SECTION 1 – PROPERTY INFORMATION

† Address a. _____ (HOUSE NUMBER) b. _____ (STREET NAME) c. _____ (APARTMENT NUMBER)

BBL: (The property's BBL can be found on the bottom of your tax bill or online at www.nyc.gov/finance)

d. _____ (BOROUGH) e. _____ (BLOCK) f. _____ (LOT)

SECTION 2 – OWNER INFORMATION

† Applicant a. _____ (FIRST NAME) b. _____ (LAST NAME)

c. Social Security # _____ d. Date of Birth: ___ (MM) ___ (DD) ____ (YYYY) e. Phone: _____

† Email _____ g. Is this your Primary Residence? ☐ YES ☐ NO

SECTION 3 – INSTRUCTIONS

DOCUMENTATION

- You must provide copies of proof of identity and relationship to the property (e.g. drivers license, non-driver ID, Power of Attorney deed) to complete the application process. Failure to provide this will result in the denial of this request.

MAKING PAYMENTS

- Payments should be mailed to the NYC Department of Finance, P.O. Box 32, New York, N.Y. 10008-0032, made online at nyc.gov/finance or brought into one of the five Business Centers.

EXEMPTION ELIGIBILITY CHECKLIST

- I understand that there are exemptions that may remove some properties from tax sales and I have received a copy of the Exemptions Eligibility Checklist.

Initial the box to the right to verify receipt of exemption listing ☐

TERMS OF AGREEMENT

- The terms of the Payment Agreement for the 30 1 Tax Lien Sale will minimally allow for a zero down payment and up to ten (10) years of quarterly payments. Real property taxes accrue interest at the rate of either nine percent if the property has an assessed value of $250,000 or less or eighteen percent if the property has an assessed value greater than $250,000. Interest rates may change periodically as required by law. Failure to keep up rent on your Payment Agreement payments as well as your current tax charges will default the Payment Agreement and make the property eligible for all collection methods including future Lien Sales. The property may also become eligible for in rem foreclosure. In addition failure to meet the terms of the Payment Agreement will preclude you from entering into another agreement for a period of five (5) years.

- Payment Agreements can be up to 10 years (40 quarters). However, you may also choose a shorter Payment Agreement which will ultimately reduce the interest you pay to the agreement, but will increase monthly payments. Please indicate the number of years you would like your Payment Agreement here _____ Years. If you do not enter a specific number of years, the 10 year (40 quarter) period will be selected.

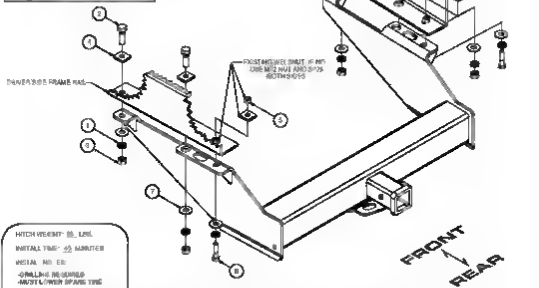
WELDNUT CLEANING

To remove debris from weldnuts in frame, spray lubricant or compressed air into hole. For heavy debris, use a small wire brush. (Be careful not to damage threads)



HITCH WEIGHT: 55 LBS.
INSTALL TIME: 45 MINUTES
METAL NEEDED:
-DRILLING REQUIRED
-MUST REMOVE SPARE TIRE

INSTALLATION STEPS

LOWER THE SPARE TIRE. The rear bolt in the bottom of the frame on each side must be removed. If equipped with factory step bumper. Use provided M12 bolt and nut if existing bolt and weldnut are present. Clean away any mud and undercoating if present. If not present use SP25, M12 fastener and M12 nut.

1) The large cut outs in the hangers should clear rivets and cross member bolts

2) Using the 3/16" x 2" grade 5 hardware and spacers provided secure the receiver to existing round hole in frame on each side

NOTE: Must enlarge middle 3/16" holes

3) Torque all 3/16" fasteners to 150 ft-lb and M12 fasteners to 79 ft-lb. Raise spare tire back into position.

PERIODICALLY CHECK THIS RECEIVER HITCH TO ENSURE THAT ALL FASTENERS ARE TIGHT AND THAT ALL STRUCTURAL COMPONENTS ARE SOUND.

GENERAL INFORMATION

Payments that you made must do not appear on this bill as a credit should be deducted from the "Total Amount Due" when you make the payment. The remaining bill should always accompany your payment. When paying in person, please bring your remittance slip. The "Service Thru" date on the bill refers to the amount of time the equipment and does not service any services billing due made or payment arrangements. An explanation of the various charges, rate schedules, and information on how to verify the accuracy of this bill can be obtained at a local Windstream retail location or by calling customers on Customer Service toll-free at the number on the front page of this bill. All federal, state and local taxes are computed in accordance with the appropriate tax laws.

Billing or service questions or complaints should be referred to Windstream Customer Service. Discrepancies should be brought within 20 days of the date of the bill. Where necessary adjustments to be made before the next bill cycle. If a portion of your bill is disputed or disputed, that amount only may be withheld from your payment. All valid charges must be paid in order investigation of your service. Please call Windstream Customer Service toll-free to resolve the error.

If your account due is less than $0.01 you may not overlook a billing statement.

A "Late Payment Charge" may apply to each statement bill when the previous month's bill has not been paid in full, leaving an unpaid balance carried forward. The charge is applied to the total amount carried forward and is included in the amount due on the current bill. Service and equipment are billed a one month in advance. In certain service areas Windstream will not provide charges or provide credit for any partial periods if you change and or terminate your service on a date prior to the last day of your billing cycle. This only applies to Windstream services and may not apply to services provided by other parties. The minimum service period is 30 days. "DW" next to a service denotes a credit. A "CR" appears next to the "Total Amount Due" do not pay.

eCheck authorization: 30114 By selecting the 5-digit code when paying by phone, I hereby authorize Windstream and the financial institution designated by me to charge the account I have specified for payment of my Windstream services. I understand that a fee will be charged to my Windstream account for each request returned unpaid. If two provided are returned service will be restricted from this option. In addition, I understand that Windstream and the financial institution reserve the right to terminate this payment option. This authorization can be revoked, by notifying Windstream at the mentioned service number listed on my bill prior to 6:00 P.M. CST on my specified payment date.

911 Taxes: This fee recovers Windstream's costs associated with connection maintenance and upgrades of 911 services and related facilities. This fee also recovers the costs of Windstream providing 911 services to resale that terms between a 911 surcharge, in certain case the amount of the fee is set in accordance with state laws.

Telephone Charge per Line/Number/Subscription Number: This charge also known as the Federal Subscriber Line Charge (SLC), is an FCC regulated fee that enables local telephone companies to recover a portion of the costs of connecting customers' homes or businesses to the telephone network; to these customers may receive another access charges only.

Telephone Tax: A service excise tax paid to the Federal Government, which is applied to all wireless customers.

State Tax: A state tax made on all wireless customers. The tax varies widely by local regulatory service charges and usually taxes the form of a sales tax. The computation of this tax may vary by county.

County Tax: A county tax made on all wireless customers. The tax usually applies only to local regulatory service charges and usually taxes the form of a sales tax. The computation of this tax may vary by county.

City Tax: A city tax levied on all wireless customers. The tax varies widely by local regulatory service charges and can be a sales tax, a telephone line tax, or both. The application of this tax may vary by city.

Assessment Tax / Equalization Surcharge: A usage-based tax levied by certain individual states on long distance calls made in the state

Gross Receipts Tax/Surcharge: This charge recovers for a fee, in accordance either on Windstream or an assessment directly by various made for the provision of communications services. In the case of municipalities surcharges, they are not government mandated charges.

Federal USF Fee: The Federal Universal Service Fund (USF) was established by the FCC to ensure that telecommunications services are affordable to customers with low incomes and customers living in rural areas where the cost of providing access is high. The fund also provides mandated telecommunication discount to schools, libraries, and rural telemedicine providers. Through this fee, Windstream recovers the cost of its mandated contribution to the FUSF as provided by the FCC.

State USF Fee: Some states have established a State Universal Service Fund (SUSF) similar to the service USF. In those states, telecommunications companies must contribute a percentage of their revenue to the SUSF. The states in turn, state telecommunications committee, to recover their customers contribution to SUSF fund their customers.

Relay Service Surcharge: The Americans with Disabilities Act requires all companies offering voice service to provide access to a Telecommunications Relay Service (TRS) and to contribute to a shared fund to support this service. This service enables an individual who is a hearing or speech impaired to communicate with others through access to a Telecommunications (TTY) and/or Telecommunications Device for the Deaf (TDD).

Local Number Portability (LNP) Fee: LNP allows customers to keep their current local telephone number when changing telephone service providers. The FCC has determined that the local telephone company may recover certain costs for providing LNP.

Inter-state Service Fee: The Interstate Service Fee helps recover costs associated with providing returned long distance including, for example, interstate and international communities network. This fee is not a tax or charge required by the government.

Deregulated state mandated Fee: The Deregulated Administrative Fee recovers costs associated with the administration of providing many products and services, such as maintenance and enhancement offerings. This fee is not a tax or charge required by the government.

The best way to ripen avocados

A friend of mine once planted an avocado tree and as the avocados would grow to full size, he would let them sit on the tree waiting and waiting for them to get soft before harvesting them. But they never did get soft. The lesson? avocados do not ripen on the tree, but only after they have been harvested. This is the reason that they are often still hard at the market, which is not a s gn of an inferior fruit but of one that still needs some time to undergo full ripening, a process which is simple to do at home. In fact, unless you are going to be serving the avocado immediately after purchasing, it is better to buy one that is still hard so that you can control the ripening process and therefore the point at which it will be perfect for consumption.

How do you know when avocados are ripe?

Although most avocados you find at the store are hard, some stores carry ripe, ready to-eat avocadoes for their customers. An avocado s ripe when its skin turns from green to a dark brown green color and "gives" slightly when it is gently squeezed. You can select the best, ripe and ready to-eat avocado by looking for one that is slightly soft without dark sunken spots or cracks. Obviously these signs apply not only to avocados that are ripe in the store, but to those at home, giving you signs as to when your fruit has reached the perfect time to be eaten.

Be sure not to purchase avocados that rattle when you shake them. This means the pit is pulled away from the flesh and it is overripe.

How to Store Avocadoes After You Bring Them Home

Never refrigerate unripened (hard) avocados because they will not ripen in cold temperatures

Please visit My.EMC.org to obtain an electronic copy of your health information and/or medical summaries to your office visits. You will be required to register the first time you visit. Please plan to review your records

- Go to the website My.EMC.org
- Register to create your account. This will require you to set up a username and password. A tutorial is available to assist you in setting up the account.

Once you have set up your account you may log in at any time. Any place to view your medical information. Please make a note of your login and password for future access.

You may also contact Health Information Management at 760-773-1211 to request a copy or to view your complete medical record. Please note that there is a charge for copies of your medical records. Health Information Management is open Monday through Friday 8 a.m. to noon and 1 to 4 p.m. (closed on holidays).

What is an electronic medical record (EMR)?

An EMR (also called an electronic health record) is created within an organization like Eisenhower Medical Center to give patients, physicians and other health care providers access to a patient's medical records across the facility. For instance, your primary care physician might review information from a recent hospitalization or a recent visit to an Eisenhower Urgent Care. An EMR can include medical history, medications and allergies, laboratory test results and more.

RE: Mabrella Norman

Dear Attorney Advocate

The letter is to inform you that Mabrella Norman had a positive urine test on 10/26/2015. The test was presumptive for Benzoylecgonine and Norbenzoylecgonine. As per the Drug Court's requirements, client's level of care will be increased to level one with the planned use of a behavioral contract.

Additional Information

For the many participants' current awareness, benzoylecgonine (Cocaine Metabolite) and cocaine metabolite, the latter term, is reported there by urine laboratories, which detects the presence of cocaine. Cocaine is extracted from the coca plant. Cocaine is a local anesthetic and vasoconstrictor that blocks nerve impulses. Used for medical purposes, it can produce euphoria and is habit-forming. Cocaine is also referred to as coke or crack.

Psychological problems associated with cocaine use include anxiety, depression, irritability, and restlessness. Other problems are a small appetite, insomnia, and [illegible] loss of interest in sex.

The Drug Courts are based on the concept that addiction is a chronic disease, which requires long-term treatment and support. Research has shown that drug courts can reduce drug use and criminal behavior among participants. Drug courts also help participants develop the skills they need to lead productive, drug-free lives. Drug courts are designed to help participants break the cycle of addiction and criminal behavior by providing them with the tools they need to overcome their addiction and lead productive, drug-free lives.

If you have any questions or concerns, please feel free to contact me. I can be reached at 618-709-7439.

Respectfully,

[illegible]

Prayer to St Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord, so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms I dare not approach while He reposes near your heart Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us Amen

Say for nine consecutive mornings for anything you may desire It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death nor be drowned, nor will poison take effect on them They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle

Make this prayer known everywhere.

Imprimatur
Most Rev George W Ahr
Bishop of Trenton

CABERNET SAUVIGNON RESERVE

NAPA VALLEY

• WINE •

Varietal composition
86% Cabernet Sauvignon
12% Cabernet Franc
2% Petit Verdot

Flavor descriptors
Deep, dark color signals the wine's depth of flavor and opulent texture. Aromas of black fruits and hints of cedar, black licorice and spicy nutmeg and clove lead to dense flavors of blackberry and black plum enhanced by elegantly powerful tannins. Polished yet powerful.

Wine analysis
Total acid .66%
Final pH 3.7
Residual sugar 1.0% (dry)
Alcohol 15% by volume

• VINTAGE •

A warm, dry spring followed a moderately rainy winter, giving an early start to the 2004 growing season. Unseasonably warm temperatures in March initiated early budbreak and all varieties bloomed in May at least a week ahead of the usual schedule. Total rainfall was lighter than average, though crops virtually ended by March. Temperatures throughout summer were relatively mild, with Napa Valley's famous fog lingering over the vineyards until late morning. These conditions, which continued through most of the harvest season, fostered high quality grapes and set a relatively easy pace for the vineyard and winemaking teams. The grapes for this wine were harvested between September 8 and October 28.

Grapes: Harvested at 23.8° Brix (average) with 0.79% Initial acid and 3.7pH

• VINEYARDS •

Appellation:
Napa Valley

Grape Sourcing:
81% Oakville AVA, including 53% To Kalon Vineyard, 19% Stags Leap District

• WINEMAKING •

Hand-harvested into small bins
Hand-sorted on tables in To Kalon Fermentation Cellar
Gravity flow movement of grapes and wine
Fermented in stainless steel tanks and gently pressed in a traditional basket press
35 days extended skin contact (maceration) for softening of tannins
18 months (533 days) aging in French oak cleaved barrels
75% new French oak barrels

SUGGESTED RETAIL PRICE AT RELEASE IS $125.00

Good troubleshooting is a process that combines knowledge, experience, and skill. Here, are you practice training and support in a work environment, you will add to your experience and develop intuition that will help you to quickly solve a variety of problems.

Regardless of your current troubleshooting abilities, you will benefit from following a systematic approach to problem-solving. The following process has proven effective in a variety of situations:

1. Identify the symptoms and potential causes. Ask the user to describe the problem. Check for error messages, and recreate the problem. Review the steps to start fixing the root of the issue.
2. Identify the affected areas and determine how large the problem is. For example, does the error message would likely be very different than does for an entire network segment.
3. Establish what has changed. Most often, problems are caused by new hardware or software or changes to the configuration. If necessary, ask questions to discover what might have changed that could have caused the problem.
4. Review the list of potential causes and select the most probable cause. Look for common errors or solutions that can be tried quickly.
5. Decide if the problem if it is beyond your ability to fix or your scope of knowledge. For example, the problem might be in a router configuration that you are not authorized to correct. When forwarding the problem on to someone else, be sure to describe the nature of the problem, the actions you have already taken, and the symptoms that lead you to resolve the problem is outside of your area of responsibility.
6. Create an action plan and account for side effects of the proposed plan. Your plan might include purchases for hardware or equipment that need approval before proceeding. In addition, your plan might involve taking down services offline for a period of time. Identifying the effects ahead of time helps you put measures into place to eliminate or reduce any potential negative consequences.
7. When side effects have been weighed against the fix and all concerns have been addressed, fix the problem. If necessary, implement additional steps to correct the problem if your first solution did not work. After you think you have resolved the problem, test the result.
8. Identify the results and effects of the solution. Make sure that the solution has fully fixed the problem and has not caused any other problems.
9. Document the solution and process. In the future, you can check your documentation to see what has changed or to help you remember the solution to common problems.

Remember that however, that troubleshooting is a process of both gradual and sudden induction. Experience will show you when to quickly jump from step to step and when to spend time on each.

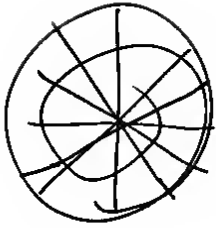
FAX TEST #2



I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to FaxToy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

Charter-Time Warner Cable Merger Promises Consumer Benefits; Should Boost Broadband and Competition

by

Seth L. Cooper †

Introduction

Any day now the FCC should formally begin its examination of the proposed merger between Charter Communications and Time Warner Cable. To the consumer welfare standpoint the Charter-TWC transaction appears almost certain to benefit consumers. The potential upsides include accelerated digital video service upgrades, more rapid deployment of high-speed broadband Internet services, and more competitive mobile voice and broadband enterprise broadband service offerings.

Combinations of personnel, institutions, and knowledge are every day occurrences in the world of business enterprise. Hires of employees, formations of new business corporations or partnerships, and ventures into new lines of business all routinely involve the combining or merging of material, financial, and intellectual resources.

Mergers and acquisitions should be properly viewed in this broader context of entrepreneurial business decision making. They are an important means of improving efficiencies by cutting costs and increasing business opportunities enabled by increases in scope and scale. Thus,

Patient Name: npwfasdc

Patient DOB: 01-01-984

Medical Record Number: 142

Date Of Service: 07-24-2014

Procedure: Shockwave Lithotripsy

Surgeon: Cicilo Glacy, PA

Patient DOB: 01 01 984

Patient Name: npwfasdc

Indications:

npwfasdc is a 50 year old Female with a history of nephrolithiasis currently with a 0.6cm Upper pole renal stone. None Options for management were discussed with the patient. The risks, benefits, and complications for extracorporeal lithotripsy were discussed with the patient.

Risks including but not limited to fractures, bleeding, hematoma, residual stone, recurrent stone, stent/ureteral need for further or additional procedures were discussed with the patient and they have asked me to proceed.

Procedure:

After appropriate General anesthesia was administered, the patient was positioned supine on the lithotripsy table. The stones were localized under fluoroscopy in both coronal and anteroposterior views. A total of 253 were delivered to the 0.6 Upper pole, renal.

Shockwaves were delivered at a rate of 235 and 235. There was excellent fragmentation of the 0.6 Upper pole, renal. The patient was awakened from anesthesia and taken to the recovery room in stable condition.

Disposition: The patient is to follow up in 1 week.

AP Biology Summer Assignment Part 1: Biology Review Questions

Answer these questions in complete sentences (unless otherwise stated) in as much detail as you can. You will turn these in after using them to take your only open-note (but closed book) test this year. Your answers should be in your own words. Do not copy from other students.

1. Describe (don't just list) the characteristics of life. Try to figure out the smallest set of characteristics that would separate all living things from all non-living things.
2. Define the following: atoms, molecules, covalent bonds, ionic bonds, hydrogen bonds, reactants, products, subunits and isotopes.
3. Describe a function for each of the basic types of molecules: proteins, lipids, carbohydrates and nucleic acids.
4. Describe the function of the following organelles: nucleus, plasma membrane, endoplasmic reticulum, ribosomes, golgi apparatus, mitochondria, chloroplasts and vacuoles.
5. Explain the difference between eukaryotic and prokaryotic cells. You can compare them with a t-table or Venn diagram. Who else is in the examples of each?
6. Define mitosis and meiosis and compare the two processes for eukaryotic nuclear division.
7. What is ATP? Why is it important? Describe the ATP cycle.
8. Compare photosynthesis and cellular respiration. What is the "purpose" of each? Write down the equation for each. Which types of organisms do each?
9. Describe Mendel's laws of segregation and independent assortment in your own words.
10. Define the following terms: dominant allele, recessive allele, heterozygous, homozygous, genotype and phenotype.
11. Use a Punnett square and sentences to explain why more boys are colorblind than girls. Colorblindness is a recessive X-linked trait.
12. Describe how your genotype (DNA) leads to your phenotype (based on proteins). Make sure your description includes transcription, translation, peptide bonds and two kinds of RNA.
13. Define the following: DNA, RNA, nucleotide, amino acid, protein, transcription, translation, RNA polymerase, DNA polymerase and mutation.
14. Describe three sources of genetic variation (two of them come from sexual reproduction). Why is genetic variation important to natural selection?
15. Define evolution and natural selection. Explain how natural selection leads to evolution.
16. Describe the functions of the following organ systems, as summarized in earlier skeletal, nervous, cardiovascular, respiratory, digestive, excretory and immune system.
17. Describe the function of the following organs: lungs, stomach, small intestine, large intestine, liver, pancreas, heart, arteries, veins, capillaries, kidneys.
18. Describe the autonomic and somatic nervous systems. Which organs do each of them control? Is and spinal cord. A Venn diagram would be useful here.
19. Define sensory neuron, interneuron and motor neuron. How do the three types of neurons work together in a reflex arc?
20. Compare the specific and non-specific defense systems. What is the role of each? How do they work together in your body? You can make your answer in a table or Venn diagram.
21. How do vaccines protect you from disease?
22. What is HIV? What is AIDS? How does HIV lead to AIDS?

Getting to Know Your Wireless Router

Congratulations on your purchase of a NETGEAR® high-speed wireless router. The Wireless Router Model WPN824v3

Before you begin installing your router, check the package contents (see Unpacking Your New Router). Become familiar with the front and back panels of your router—especially the status lights—and the important information on the router label (see "Bottom Label" on page 5).

Unpacking Your New Router

The product package should contain the following items.

- The wireless router
- A snap-on stand for your wireless router
- An AC power adapter (varies by region)
- A yellow Ethernet cable
- The *Resource CD*, which includes:
  - The Smart Wizard Installation Assistant (Autorun.exe)
  - A PDF version of this manual
  - A link to the online *User Manual*
- Warranty and Support information cards

If any of the parts are incorrect, missing, or damaged, contact your NETGEAR dealer. Keep the carton, including the original packing materials, in case you need to return the product for repair.

To prepare your router for installation:

1. Carefully peel off the protective film covering the sides of your router.

Preparing for Your Trip to Haiti

Before visiting Haiti, you may need to get the following vaccinations and medications for vaccine-preventable diseases and other diseases you might be at risk for at your destinations (Note: Your doctor or his/her travel provider will determine what you will need, depending on factors such as your health and immunization history, areas of the country you will be visiting, and planned activities.)

To have the most benefit, see a health-care provider at least 4–6 weeks before your trip to allow time for your vaccines to take effect and to start taking medicine to prevent malaria, if you need it.

Even if you have less than 4 weeks before you leave, you should still see a health-care provider for needed vaccines, anti-malaria drugs and other medications and information about how to protect yourself from illness and injury while traveling.

CDC recommends that you see a health-care provider who specializes in Travel Medicine. Find a travel medicine clinic (http://wwwnc.cdc.gov/travel/yellowbook/2016/chapter-2/before-your-departure.html) near you. If you have a medical condition you should also share your travel plans with any illnesses you are currently seeking for other medical reasons.

If your travel plans will take you to more than one country during a single trip, be sure to let your health-care provider know so that you can receive the appropriate vaccinations and information for all of your destinations. Long-term travelers, such as those who plan to work or study abroad, may also need additional vaccinations as required by the employer or school.

Although yellow fever is not a disease risk in Haiti, the government requires travelers arriving from countries where yellow fever is present (http://wwwnc.cdc.gov/travel/yellowbook/2016/chapter-2/yellow-fever-page.html#T2) to present proof of yellow fever vaccination. If you will be traveling in one of these countries where yellow fever is present before arriving in Haiti, this requirement must be taken into consideration.

Be sure your routine vaccinations are up-to-date. Check the links below to see which vaccinations adults and children should get.

Routine vaccines, as they are often called, such as for influenza, chickenpox (for varicella), polio, measles/mumps/rubella (MMR) and diphtheria/pertussis/tetanus (DPT) are given at all stages of life: see the childhood and adolescent immunization schedule (http://www.cdc.gov/vaccines/schedules/hcp/imz/child-adolescent.html) and routine adult immunization schedule (http://www.cdc.gov/vaccines/schedules/hcp/imz/adult.html).

Routine vaccines are recommended even if you do not travel. Although childhood diseases, such as measles, rarely occur in the United States, they are still common in many parts of the world. A traveler who is not vaccinated would be at risk for infection.

Vaccine recommendations are based on the best available risk information. Please note that the level of risk for vaccine-preventable diseases can change at any time.

Vaccination or Disease	Recommendations or Requirements for Vaccine-Preventable Diseases
Routine (http://www.cdc.gov/vaccines/vpd-vac/default.htm)	Recommended if you are not up-to-date with routine shots such as measles/mumps/rubella (MMR) vaccine, diphtheria/pertussis/tetanus (DPT) vaccine, polio, oral vaccine, etc.
Hepatitis A (travel/yellowbook/2016/chapter-2/hepatitis-a-page), or immune globulin (IG)	Recommended for all unvaccinated people traveling to or working in countries with an intermediate or high level of hepatitis A virus infection (see map (travel/yellowbook/2016/chapter-2/hepatitis-a-page#T401)) where exposure might occur through food or water. Cases of travel-related hepatitis A can also occur in travelers to developing countries with standard tourist itineraries, accommodations, and food consumption behaviors.
Hepatitis B (travel/yellowbook/2016/chapter-2/hepatitis-b-page)	Recommended for all unvaccinated persons traveling to or working in countries with intermediate to high levels of endemic HBV transmission (see map (travel/yellowbook/2016/chapter-2/hepatitis-b-page#T402)), especially those who might be exposed to blood or body fluids, have sexual contact with the local population, or be exposed through medical treatment (e.g., like an accident).
Typhoid (travel/yellowbook/2016/chapter-2/typhoid-page)	Recommended for all unvaccinated people traveling to or working in the Caribbean, especially if staying with friends or relatives or visiting smaller cities, villages, or rural areas where exposure might occur through food or water.
Rabies (travel/yellowbook/2016/chapter-2/rabies-page)	Recommended for travelers spending a lot of time outdoors, especially in rural areas, involved in activities such as bicycling, camping, or hiking. Also recommended for travelers with significant occupational risks (such as veterinarians), for long-term travelers and expatriates living in areas with a significant risk of exposure, and for travelers involved in any activities that

He told me to look at my hand, for a part of it came from a star that exploded too long ago to imagine. This part of me was formed from a tongue of fire that screamed through the heavens until there was our sun. And this part of me—this tiny part of me was on the sun when it itself exploded and whirled in a great storm until the planets came to be.

And this small part of me was then a whisper of the earth. When there was life, perhaps this part of me got lost in a fern that was crushed and covered until it was coal. And then it was a diamond millions of years later—it must have been a diamond as beautiful as the star from which it had first come.

Or perhaps this part of me become lost in a terrible beast, or became part of huge bird that flew above the primeval swamps.

And he said this thing was so small—this part of me was so small it couldn't be seen—but it was there from the beginning of the world.

And called this bit of me an atom. And when he wrote the word, I fell in love with it.

Atom.

Atom.

What a beautiful word.

Hello!

This is a sample test file which is being sent to you as per your request via the Interpage FreeFax(sm) Service!

This service is intended to provide a preliminary evaluation as to the quality and timeliness of interpage's subscription fax service(s).

If you review the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the TO: field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with this trial fax transmission result.

This file is a sample MS Word file;
many other file types (PDF, XLS, PS, RTF, etc) are supported.

Information regarding Interpage's fax services may be found at:

http://interpage.net/faxing – Interpage Fax Services Overview
http://interpage.net/outfax – Interpage OutFax send-fax service
http://interpage.net/secure – Interpage OutFax Secure service
http://interpage.net/faxup – Interpage FaxUp fax receive service

...or contact us with questions about Interpage's fax services at:

Phone: +1 (650) 331-3900 9AM to 5.30 PM M-F Pacific Time

E-Mail: Insi-support@interpage.net

Web: http://interpage.net

Thank you for your interest!

Notes: 1. Due to the malicious use of the FreeFax service, Interpage will no longer transmit personalized text messages; only the above fixed sample message will be transmitted. Yet, may establish 1 trial account for evaluative purposes by filling out the enclosed form on page 5, and clearly indicating a valid e-mail address and contact telephone number. Please call (510) 315-2750 for additional details.

2. This fax is not a solicitation nor is at an offer; it was sent by a visitor to Interpage's web site who entered your destination number as a recipient of this test fax. A single destination may not receive more than two tests in a given week, however, if you find that someone is sending you faxes in a continuous and abusive manner please call us at (510) 315-2750 and we will block you fax number from the FreeFax service.

Other Interpage Free service trials

Does your voicemail call you?
Interpage VoiceMail will alert you before and after a caller leaves a message, send a WAV audio file of received messages to your phone or e-mail, and even call you and play the received message at one or more telephone numbers! For details, visit: Interpage.net/voicemail

Multiply the value of your old pager!
Like having a pager but need to receive messages on your cellphone or e-mail as well? Want to have the same functionality as a pager on your cellphone without having to give out your cellphone number? Would you like to schedule and filter received pages and emails to multiple cellphones, pagers, and email accounts? Try Interpage's DirectPage service! For details, visit: Interpage.net/directpage

Know for sure that urgent alerts are received!
OutVoice text-to-speech and WAV file telephone alert/broadcast reliably notifies landlines, not cellphones, and can prompt the recipient to confirm receipt so senders can be certain that alerts are received! For details, visit: interpage.net/outvoice

Welcome to HP Customer Support

HP Fax Products - Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service.

Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

NOTE:

Faxing requires a standard phone line with a dial tone. To use a fax machine over cellular service (your cell phone) or PBX, you must first connect an analog telephone adapter (ATA). An ATA is a hardware device that mimics a standard analog phone line and provides a dial tone. Before purchasing an ATA, make sure it is compatible with faxing and your phone service.

Test your fax machine

To test the capability of your fax machine, follow the directions below.

NOTE:

Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

NOTE:

Whenever troubleshooting a fax issue, it is good practice to set the ***Automatic Report*** option to ***Every Error*** before attempting a test fax. This way, even if the sent fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products, consult the product *User's Guide* for specific steps.

1. Send a one page black and white test fax to **1-800-hpfaxme** (1-888-473-2963).
2. When your fax is received by the **HP Test Fax Service, we will generate** a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Continue to the next section to run a fax test or consult the user manual that came with the product for proper setup and configuration.

NOTE:

The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

Run a fax test from the front panel

Florida International University
MEDICAL AUTHORIZATION

PARENTAL CONSENT & AUTHORIZATION

We, [redacted] are the parent(s) or legal guardian(s) of [redacted], who is [redacted] years old and is a minor as defined by the laws of the State of Florida. We hereby give our consent to allow our child to participate in the Florida International University Summer Program (hereinafter referred to as "PROGRAM") to be held at Florida Christian Camp and Conference Center (Lake Placid, FL) from June 28, 2015 through June 30, 2015.

We understand that my/our health insurance, if available, will be the primary coverage in the event of accident or illness while attending the PROGRAM. We further understand that in the event such information or have exceeded our coverage limits, we/I would rather we be billed by the appropriate administrative PROGRAM for accident occurring during the time period pertaining to the PROGRAM and including pre-existing conditions. This insurance coverage is limited to a total amount of $25,000 per participant. The policy will be arranged through the Florida International University and will be in effect for the duration of the PROGRAM. Upon written request a copy of the policy will be sent to parents or guardians when it is available. The coverage will be effective from June 28, 2015 to June 30, 2015 unless I withdraw my child from the PROGRAM for the holiday weekend or at other times as agreed upon by the Director of the Executive Director.

We/I also authorize representatives, employees of the PROGRAM and authorized representatives of the Host Agency to obtain from a licensed physician medical history, physical condition, medical diagnosis of my son/daughter as deemed necessary to safeguard my son/daughter's overall health care. A photocopy of this authorization shall be valid as the original. This authorization will be valid for the term of my son/daughter's participation under my policy.

We/I the parent(s) or guardian(s) of [redacted] do hereby request that the Florida International University (FIU) employees and employees, take whatever steps are necessary to provide medical attention to the child named above in the event such attention becomes necessary while he/she is attending the PROGRAM. We/I consent to the rendering of all necessary medical care, including admission to a hospital or clinic appropriate facility, such hospitalization and/or such physicians as the Florida International University Housing Program agents or employees deem best. I authorize the agents or employees of the University to give whatever consent forms might be necessary to secure complete medical treatment of my/my child.

We/I affirm that the above medical information is complete and accurate. We/I understand pre-existing health conditions are not covered by the Florida International University or the PROGRAM and I/we accept that it is my/our responsibility to inform the financial responsibility of the parent(s) or guardian(s). We/I also understand that the executive police chief above does not provide any medical opinions as to how or what should have been done before and not covered by any medical insurance of the Florida International University or the PROGRAM and that certain conditions will not be covered under the terms of the insurance policy.

If this document is being signed by only one parent, I, the undersigned, affirm that I have sole custody of the participant. If this document is being signed by a guardian(s), I/we, the undersigned, affirm that I/we have been appointed as the legal guardian(s) of the participant.

(FORBEARANCE REQUEST CONTINUED)

Definitions:

- **Forbearance** is a period arrangement between the borrower and lender, only if the lender approves the request, that allows a borrower to temporarily postpone payments, obtain an extension for making payments, or make smaller payments than originally scheduled.
- **A co-signer** is one or more individuals who sign your borrower's Citizens Conditional loan and are equally responsible for repaying the loan.
- **Capitalized interest** is interest that is added to principal, resulting in a higher balance on which interest will accrue. Both subsidized and unsubsidized loans accrue interest during forbearance periods.

Policy:

- The maximum period we may grant 12 month. Some lenders only allow forbearance for shorter periods.
- You may request forbearance if you reasonable to make payments on the loan due to financial hardship.
- The forbearance will cover the couple of days/the request if any and a future number of days, up to 12 months.
- Your forbearance will begin on the date when your last payment was due (up to 90 days in the future).
- We will send you a quarterly interest statement during the forbearance period.
- We will capitalize unpaid interest at the end of the forbearance period.
- Forbearance will not affect any prior delinquency, credit history.
- You may also be responsible for late charges assessed prior to the date ACS receives your completed forbearance application.

Instructions for Submitting the Request:

Mail: ACS Education Services
P.O. Box 7051
Utica, NY 13504-7051

Fax: (716) 796-5550

Please allow 10 days after we receive your application to review and process the forbearance request. We will send written notification of approval or denial of the forbearance request to you.

You can verify the status of your request by calling our Automated Phone System at 800-835-4611 or logging on to your account at www.acs-education.com. Use the document processing status area to indicate when your forbearance will be processed.

Deductions and Adjustments Worksheet

Note. Use this worksheet only if you plan to itemize deductions, claim certain credits, or adjustments to income.

1 Enter an estimate of your 2012 itemized deductions. These include qualifying home mortgage interest, charitable contributions, state and local taxes, medical expenses in excess of 7.5% of your income, and miscellaneous deductions . . . . . 1 $

2 Enter { $11,900 if married filing jointly or qualifying widow(er) / $8,700 if head of household / $5,950 if you're a single or married filing separately } 2 $

3 **Subtract** line 2 from line 1. If zero or less, enter "-0-" . . . . . 3 $

4 Enter an estimate of your 2012 adjustments to income and any additional standard deduction (see Pub. 505) . . . . . 4 $

5 **Add** lines 3 and 4 and enter the total. (Include any amount for credits from the *Earned Income Credit (EIC) Worksheet* or *Additional Tax Computation Worksheet* in Pub. 505.) . . . . . 5 $

6 Enter an estimate of your 2012 nonwage income (such as dividends or interest) . . . . . 6 $

7 **Subtract** line 6 from line 5. If zero or less, enter "-0-" . . . . . 7 $

8 **Divide** the amount on line 7 by $3,800 and enter the result here. Drop any fraction 8

9 Enter the number 1 on the **Personal Allowances Worksheet**, line H, page 1 9

10 **Add** lines 8 and 9 and enter the total here. If you plan to use the **Two-Earners/Multiple Jobs Worksheet** also enter the total on line 1 below. Otherwise, stop here and enter the total on Form W-4, line 5, page 1 10

Two-Earners/Multiple Jobs Worksheet (See *Two earners or multiple jobs* on page 1.)

Note. Use this worksheet only if the instructions under line H on page 1 direct you here.

1 Enter the number from line H, page 1 (or from line 10 above if you used the **Deductions and Adjustments Worksheet**) 1

2 Find the number in **Table 1** below that applies to the **LOWEST** paying job and enter it here. **However,** if you are married filing jointly and wages from the highest paying job are $65,000 or less, do not enter more than "3" 2

3 If line 1 is **more than or equal to** line 2, subtract line 2 from line 1. Enter the result here (if zero, enter "-0-") and on Form W-4, line 5, page 1. **Do not** use the rest of this worksheet 3

Note. If line 1 is **less than** line 2, enter "-0-" on Form W-4, line 5, page 1. Complete lines 4 through 9 below to figure the additional withholding amount necessary to avoid a year-end tax bill.

4 Enter the number from line 2 of this worksheet 4

5 Enter the number from line 1 of this worksheet 5

6 **Subtract** line 5 from line 4 6

7 Find the amount in **Table 2** below that applies to the **HIGHEST** paying job and enter it here . . . . . 7 $

8 **Multiply** line 7 by line 8 and enter the result here. This is the additional annual withholding needed . . . . . 8 $

9 **Divide** line 8 by the number of pay periods remaining in 2012. For example, divide by 26 if you are paid every two weeks and you complete this form in December 2011. Enter the result here and on Form W-4, line 6, page 1. This is the additional amount to be withheld from each paycheck . . . . . 9 $

Privacy Act and Paperwork Reduction Act Notice. We ask for the information on the form to carry out the Internal Revenue laws of the United States. Internal Revenue Code sections 3402(f)(2) and 6109 and their regulations require you to provide this information; your employer uses it to determine your federal income tax withholding. Failure to provide a properly completed form will result in your being treated as a single person who claims no withholding allowances, providing fraudulent information may subject you to penalties. Routine uses of this information include giving it to the Department of Justice for civil and criminal litigation; to cities, states, the District of Columbia, and U.S. commonwealths and possessions for use in administering their tax laws; and to the Department of Health and Human Services for use in the National Directory of New Hires. We may also disclose this information to other countries under a tax treaty, to federal and state agencies to enforce federal nontax criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism.

You are not required to provide the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books or records relating to a form or its instructions must be retained as long as their contents may become material in the administration of any Internal Revenue law. Generally, tax returns and return information are confidential, as required by Code section 6103.

The average time and expenses required to complete and file this form will vary depending on individual circumstances. For estimated averages, see the instructions for your income tax return.

If you have suggestions for making this form simpler, we would be happy to hear from you. See the instructions for your income tax return.

Il telefax (più conosciuto con l'abbreviazione «fax»)[1] è un servizio telefonico consistente nella trasmissione (invio e ricezione) di immagini fisse (tipicamente copie di documenti). Da un punto di vista tecnologica è una standard di telecomunicazioni.

Il fax, per estensiane, è anche l'immagine fissa (spessa si tratta di un testo) inviata e ricevuta. Sempre per estensione il fax è anche l'apparecchio telefonico che invia e riceve l'immagine fissa.

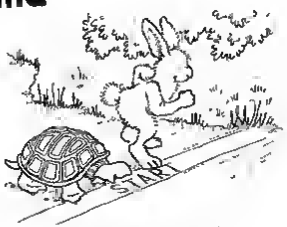
Parents, For Your Information: 136 words, 13 new words—rabbit, turtle, slow, did, one, want, race, yes, as, woke, won, lost, win

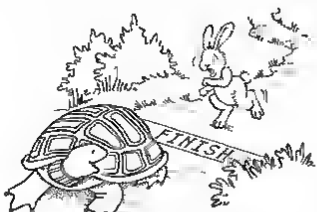
LISTEN to your child read this story aloud.

The Rabbit and the Turtle



Once there was a rabbit and a turtle. The rabbit liked to run. He liked to run fast. The turtle was slow. He did not like to run. He did not like to go fast. One day the rabbit said, "Turtle, do you want to race?" "Yes," said the turtle. "I can go as fast as you." "No, you cannot," said the rabbit. "You are slow and I am fast."

The rabbit ran fast. The turtle was slow. The rabbit stopped and went to sleep. The turtle did not stop. He was slow, but he did not stop. He did not sleep.



The rabbit woke up. The turtle won the race. The rabbit lost. The rabbit was sad and the turtle was happy. "You are slow, Turtle, but you can win the race," said the rabbit.

When Grandma Goes To Court

Lawyers should never ask a Mississippi grandma a question if they aren't prepared for the answer.

In a trial, a Southern small town prosecuting attorney called his first witness, a grandmotherly, elderly woman to the stand. He approached her and asked, "Mrs. Jones, do you know me?" She responded, "Why, yes, I do know you, Mr. Williams. I've known you since you were a boy, and frankly, you've been a big disappointment to me. You lie, you cheat on your wife and you manipulate people and talk about them behind their backs. You think you're a big shot when you haven't the brains to realize you'll never amount to anything more than a two bit paper pusher. Yes, I know you."

The lawyer was stunned. Not knowing what else to do, he pointed across the room and asked, "Mrs. Jones, do you know the defense attorney?"

She again replied, "Why yes, I do. I've known Mr. Bradley since he was a youngster, too. He's lazy, immoral, and he has a drinking problem. He can't build a normal relationship with anyone, and his law practice is one of the worst in the entire state. Not to mention he cheated on his wife with three different women. One of them was your wife. Yes, I know him."

The defense attorney nearly died.

The judge asked both counselors to approach the bench and, in a very quiet voice, said:

"If either of you idiots asks her if she knows me, I'll send you both to the electric chair."

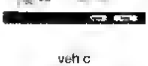
ElmScan 5 Compact USB™ Quick Start

1. Install drivers

Insert the software CD in your CD-ROM drive. The scan tool selection menu will automatically appear. Click on **ElmScan 5 Compact**.

If the menu does not appear, click **Start→Run**, *type D:\setup.exe (where D: is the drive letter of your CD-ROM drive), and click OK.*

The software selection menu will appear. Click on the driver link for your operating system and install the drivers.



B

2. Connect scan tool to the PC

Connect the USB cable to your PC's USB port (step A).

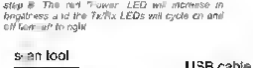
3. Locate the diagnostic connector

The 16-pin D-shaped diagnostic link connector (**DLC**) should be located in the passenger or driver's compartment in the area bounded by the driver's end of the instrument panel to 300 mm (~1 ft) beyond the vehicle centerline, attached to the instrument panel and easy to access from the driver's seat. The preferred location is between the steering column and the vehicle centerline.

4. Connect scan tool to the DLC

Turn the vehicle's ignition to the **Key On, Engine Off** position. Follow connection diagram (directly below) to connect ElmScan 5 to the diagnostic connector (step B).

If possible, watch the LEDs as you are performing step B. The red "power" LED will illuminate on power-up and the Tx/Rx LEDs will cycle on and off (normal) briefly.



ScanTool.net

Intelligent solutions for OBD-II diagnostics

5. Install OBDwiz software

Click on **OBDwiz**, and follow the prompts to install the software.

6. Launch OBDwiz software

To launch the software click on **Start→ Programs→OBDwiz→OBDwiz**. Click the **Auto Detect** button, then click the **Connect** button.

Technical support

Should you run into problems, technical support is just a click away.

- **Knowledgebase** – contains answers to the most commonly asked questions, general information about OBD-II, and troubleshooting information.
- **Forum** – allows you to share information and get support from other ElmScan 5 users.

These resources can be accessed from our website **www.ScanTool.net**.

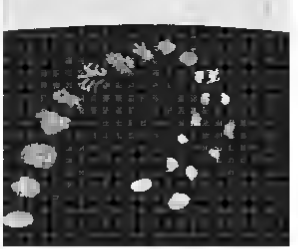
The Cell Cycle



▲ **Figure 12.1** *How do a cell's chromosomes change during cell division?*

KEY CONCEPTS

12.1 Most cell division results in genetically identical daughter cells

12.2 The mitotic phase alternates with interphase in the cell cycle

12.3 The eukaryotic cell cycle is regulated by a molecular control system

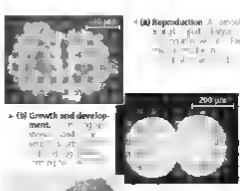
OVERVIEW

The Key Roles of Cell Division

The ability of organisms to produce more of their own kind is the one characteristic that best distinguishes living things from nonliving matter. This unique capacity to procreate, like all biological functions, has a cellular basis. Rudolf Virchow, a German physician, put it this way in 1855: "Where a cell exists, there must have been a preexisting cell, just as the animal arises only from an animal and the plant only from a plant." He summarized this concept with the Latin axiom **"Omnis cellula e cellula,"** meaning "Every cell from a cell." The continuity of life is based on the reproduction of cells, or **cell division.** The series of fluorescence micrographs in **Figure 12.1** follows an animal cell's chromosomes, from lower left to lower right, as one cell division into two.

Cell division plays several important roles in life. The division of one prokaryotic cell reproduces an entire organism. The same is true of a unicellular eukaryote **(Figure 12.2a)**. Cell division also enables multicellular eukaryotes to develop from a single cell, like the fertilized egg that gave rise to the two-celled embryo in **Figure 12.2b**. And after such an organism is fully grown, cell division continues to function in renewal and repair, replacing cells that die from normal wear and tear or accidents. For example, dividing cells in your bone marrow continuously make new blood cells **(Figure 12.2c)**.

The cell division process is an integral part of the **cell cycle**, the life of a cell from the time it is first formed from a dividing parent cell until its own division into two daughter cells. (Our use of the words *daughter* or *sister* in relation to cells is not meant to imply gender.) Passing identical genetic material to cellular offspring is a crucial function of cell division. In this chapter, you will learn how this process occurs. After studying the cellular mechanics of cell division in eukaryotes and bacteria, you will learn about the molecular control system that regulates progress through the eukaryotic cell cycle and what happens when the control system malfunctions. Because a breakdown in cell cycle control plays a major role in cancer development, this aspect of cell biology is an active area of research.



◀ **(a) Reproduction.** A unicellular eukaryote, an amoeba, reproduces by cell division.

▶ **(b) Growth and development.** The many cells of this developing sea urchin embryo arose by cell division.

◀ **(c) Tissue renewal.** These dividing cells in bone marrow will replace blood cells that die.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

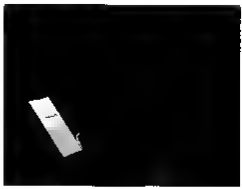
Read in Bright Sunlight with No Glare

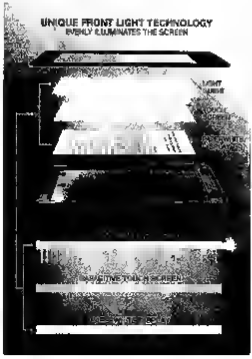
Kindle Paperwhite has a matte screen that reflects light like ordinary paper so you can read as easily in bright sunlight as in your living room with no glare.



Read at Night

With Kindle Paperwhite, reading in bed just got better. The patented built-in light illuminates the screen, not the entire room, so you won't disturb your partner when you can't put your book down at night.

Patented Built-in Light



Patented built-in light

Designed for Reading

Unlike a backlit tablet display, Kindle Paperwhite guides light towards the surface o ink display from all five of its edges. That light never shines directly towards your eyes, s you to read comfortably without eye strain. The built-in light illuminates the scree evenly than a desk lamp or lighted cover

Perfectly Balanced Whiteness

We worked on Kindle Paperwhite for over two years to perfect the uniformity of li n light, fashioning out a fiber optic cable into a sheet, and nanoimprinting it with a perfectly even distribution of light. Our design using nanoscale optical diffractive pa to enable light control over the direction of the light. Every pixel with exceptiona lighting uniformity and evenly balanced whiteness across the entire display. See h across books in different lighting conditions

Adjustable Brightness

Your eyes adapt to the amount of light around you, so you'll prefer dimmer light r reading in a dark setting and brighter light when reading in well-lit surroundings. A adjust the brightness of Kindle Paperwhite across a wide spectrum—from low ligh brightness—so you can read comfortably in any setting

Power Efficient

Because our patented technology enables fine-grain control over where the light i diffused, Kindle Paperwhite uses low-power LEDs, requiring very little power to ev illuminate the entire screen.

Subject: 6-6 Hercules 300 Rig EC301 Wimax Demo SN#1312001B

Kemp,
Last night we tried to bring up Bill Hercules Rig at EC301 RuggedCom Wimax Demo, Bill was not there for two days but arrived at site without an antenna for the CPE and as you can see below things didn't go well once he got the antenna installed, only had a couple of hours to work with him late last night and he ended up coming in and bringing equipment with him not sure what transpired with customer I can the profile with revised antenna height and have the data attached in screen shots along with the radio performance information please look and have Craig take a look at the Word doc with CPE file logged with Motot while we were working on this issue to see if he can provide any answers to what was going on other then what looks to me to be bad rf path/signal causing the issue,

6-04-11 Bill Fenix called from site at 10PM and had turned up CPE ready for performance testing and verification that services are operational, seeing DL RSSI -80.5, antenna radio & found rx power set to 216b, corrected power to 36db & now seeing DL RSSI -80.5 CINR 17.2, mod QPSK 3/4 UL RSSI 78.3 CINR 14.74 mod QUAM 16-1/2 NOT MEETING PROFILE of DL RSSI -62 & UL 74 also modulation & CINR not good Had bill reseak antenna but could not get anymore signal and CPE would reregister but would not subscribe to all service flows, sometimes it would subscribe 7 and then it would subscribe 11 but he was not able to get consistent radance connectivity and modulation was changing along with CINR and sub channels were changing from 8 to 12 got bill on verify antenna height and he said the antenna was at 130' & profile at had for 100' asked if he could relocate antenna since looking at profile with new antenna height didn't look good and he informed that the antenna was in the only place available on rig, BK informed me at 11:40 PM that he was leaving on a boat at midnight to come to port that he was bringing at equipment if it was not working correctly Worked with Bill & collected system performance data until he said he had to leave.

Please call with any questions & let us know what you & Craig come up with once you have had a chance to review

The Bathtub Test

It doesn't hurt to take a hard look at yourself from time to time, and this should help get you started.

During a visit to the mental asylum, a visitor asked the Director what the criterion was which defined whether or not a patient should be institutionalized.

"Well," said the Director, "we fill up a bathtub, then we offer a teaspoon, a teacup and a bucket to the patient and ask him or her to empty the bathtub."

"Oh, I understand," said the visitor. "A normal person would use the bucket because it's bigger than the spoon or the teacup."

"No." said the Director, "A normal person would pull the plug. Do you want a bed near the window?"

Did you pass, or do you want the bed next to mine?

But power is rarely static. The real question that is often overlooked is what happens in a future world in which the balance of power has shifted sharply against Taiwan and the United States—in which China controls much more relative power than it does today, and in which China is in roughly the same economic and military league as the United States. In essence, a world in which China is much less constrained than it is today. That world may seem forbidding, even ominous, but it is one that may be coming.

It is my firm conviction that the continuing rise of China will have huge consequences for Taiwan, almost all of which will be bad. Not only will China be much more powerful than it is today, but it will also remain deeply committed to making Taiwan part of China. Moreover, China will try to dominate Asia the way the United States dominates the Western Hemisphere, which means it will seek to reduce, if not eliminate, the American military presence in Asia. The United States, of course, will resist mightily and go to great lengths to contain China's growing power. The ensuing security competition will not be good for Taiwan, no matter how it turns out in the end. Time is not on Taiwan's side. Herewith a guide to what is likely to ensue between the United States, China and Taiwan.

IN AN ideal world, most Taiwanese would like their country to gain de jure independence and become a legitimate sovereign state in the international system. This outcome is especially attractive because a strong Taiwanese identity—separate from a Chinese identity—has blossomed in Taiwan over the past sixty-five years. Many of those people who identify themselves as Taiwanese would like their own nation-state, and they have little interest in being a province of mainland China.

According to National Chengchi University's Election Study Center, in 1992, 17.6 percent of the people living in Taiwan identified as Taiwanese only. By June 2013, that number was 57.5 percent, a clear majority. Only 3.6 percent of those surveyed identified as Chinese only. Furthermore, the 2011 Taiwan National Security Survey found that if one assumes China would not attack Taiwan if it declared its independence, 80.2 percent of Taiwanese would in fact opt for independence. Another recent poll found that about 80 percent of Taiwanese view Taiwan and China as different countries.

However, Taiwan is not going to gain formal independence in the foreseeable future, mainly because China would not tolerate that outcome. In fact, China has made it clear that it would go to war against Taiwan if the island declares its independence. The antisecession law, which China passed in 2005, says explicitly that "the state shall employ nonpeaceful means and other necessary measures if Taiwan moves toward de jure independence." It is also worth noting that the United States does not recognize Taiwan as a sovereign country, and according to President Obama, Washington "fully supports a one-China policy."

Thus, the best situation Taiwan can hope for in the foreseeable future is maintenance of the status quo, which means de facto independence. In fact, over 90 percent of the Taiwanese surveyed this past June by the Election Study Center favored maintaining the status quo indefinitely or until some later date.

The worst possible outcome is unification with China under terms dictated by Beijing. Of course, unification could happen in a variety of ways, some of which are better than others. Probably the least bad outcome would be one in which Taiwan ended up with considerable autonomy, much like Hong Kong enjoys today. Chinese leaders refer to this solution as "one country, two systems." Still, it has little appeal to most Taiwanese. As Yuan-kang Wang reports: "An overwhelming majority of Taiwan's public opposes unification, even under favorable circumstances. If anything, longitudinal data reveal a decline in public support of unification."

In short, for Taiwan, de facto independence is much preferable to becoming part of China, regardless of what the final political arrangements look like. The critical question for Taiwan, however, is whether it can avoid unification and maintain de facto independence in the face of a rising China.

WHAT ABOUT China? How does it think about Taiwan? Two different logics, one revolving around nationalism and the other around security, shape its views concerning Taiwan. Both logics, however, lead to the same endgame: the unification of China and Taiwan.

The nationalism story is straightforward and uncontroversial. China is deeply committed to making Taiwan part of China. For Chinese elites, as well as its public, Taiwan can never become a sovereign state. It is sacred territory that has been part of China since ancient times, but was taken away by the hated Japanese in 1895—when China was weak and vulnerable. It must once again become an integral part of China. As Hu Jintao said in 2007 at the Seventeenth Party Congress: "The two sides of the Straits are bound to be reunified in the course of the great rejuvenation of the Chinese nation."

Sign a PDF file with Adobe Acrobat XI

You can sign your own copy of a PDF file and send it to others, or you can ask others to sign your PDF file. You can also add an approval workflow to a PDF file that requires multiple signatures.

?David M. Levy

Overview	At one time I had an objective written in this resume describing the type of work I would like to be employed for. But of this time living in the Greensboro NC area, that approach has not only proved limiting, but has also known to be ineffective. So instead of approaching this resume with an objective I've decided to display an overview hoping it for nothing else to get your scenario As more and more people are experiencing the trauma of getting laid off from their jobs on a daily basis and perhaps further feeling the need to relocate, Greensboro and the surrounding areas, still proves to be a most difficult and oppressive place to find gainful employment. Although I'm known to be quite modest in my perspective of my work, its confidence lifting to hear what most people have to say about me and the work that I offer (probably a result of my easygoing manner and ability to get situations resolved successfully). I have found that my mind analyzes in a way that follows a very logical pattern that seemingly automatically finds solutions in a quick and concise way. On top of that, I find when dealing with people that don't know about computers, it is critical to speak with a dialog that anyone can understand. After seeking so many support people in the computer industry I find that this is actually unusually rare. I believe that this ability sets me apart from all the rest, and sets me on a road to good opportunity in this industry In the way of an objective, my first interest would be to work in the Web Design / Web Development arena. But due to the above mentioned employment crisis, I'm apt to having my many other skills exercised for the need of gainful employment. Mentioning one objective I feel, limits the best field for me. Yes, it lets you know what is not of work I'm looking to do for your company but it also gives you the chance to take me off of the candidate list should you decide that the objective is not quite what you're looking for. So, these days, if you were to ask me what I would like to do for your company. My answer would be anything where my skillset would be of value to you. Please look over my resume below. I'm exceptional at some things and good at others. By granting me an interview you'll be able to get a better idea of the kind of position I would fit best within your company. Please keep in mind, I'm flooded with a good deal of experience in the field which shows a strong aptitude to produce what you need. This doesn't necessarily mean that my salary requirements are high, but I would like to receive fair pay for the position I fill. In other words my pay requirements are quite flexible. I do hope you keep me in consideration.
Life Before Computers	17 years experience in mobile audio electronics and accessory sales, development, and installations. Duties consisted of selling high end low end mobile audio alarms and other accessories. However primary duties consisted of the design and implementation (installation) of solid frame. Initially trained on the ultra high level (HIGH END CAR AUDIO) by Ultra Smith Systems. Mechanical adaptability is high
What kind of experience do I have?	• Over 13 years overall experience working with computers in both hardware and software capacities. General abilities range from building, maintaining and repairing PC and Macintosh computer systems, to quick adaptability utilizing software of any kind. • Extensive experience utilizing resource skills to solve various computer issues no matter what the scenario. This allows little to no supervision or help in resolving potential problems • 5 years experience creating designs for Web Sites (Web Design) along with the implementation of application development (The ability to create database driven web sites). Ability to implement a wide variety of web effects such as hovers, mouseovers, etc. Quick to find methods and resources to implement

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere.

Job Storage

Job Storage Description

Job Storage allows you to send the print job to the printer and have it stored there until you print it from the printer's control panel. Some Job Storage jobs allow an optional PIN to be associated with the job for extra security.

Job Storage USB Installation

To enable Job Storage, you must first insert a dedicated USB storage device (with at least 16GB of memory) in the rear USB slot. This USB storage device will hold the Job Storage jobs sent to the printer. If this USB storage device is removed, Job Storage will be disabled on the printer.

Insert the USB drive in the rear USB slot and follow the instructions on the control panel. This USB drive will be dedicated to Job Storage.
The front USB slot will not work for Job Storage.

1. The USB cover may need to be removed to reveal the USB slot on some printer models. If there is a cover, remove it.
2. Insert a USB drive with at least 16GB of memory.
3. Follow the Control Panel messages to format the USB drive for Job Storage.

You may need to update your printer driver. If you do not find the "Job Storage" tab after enabling the feature in the printer, go to the following URL for instructions on how to update the printer driver.

The Errand

McQuillan walked into a bar and ordered martini after martini, each time removing the olives and placing them in a jar. When the jar was filled with olives and all the drinks consumed, McQuillan started to leave.

"S'cuse me," said a customer, who was puzzled over what he had seen, "what was that all about?"

"Nothin'," answered McQuillan, "the wife just sent me out for a jar of olives!"

Documents Stack

Welcome to Mac OS X Leopard.

The Dock in Leopard has a sleek new look and a new feature called Stacks. With Stacks, you can quickly access frequently used files right from the Dock.

Stacks are simple to create. Just drag any folder to the right side of the Dock and it becomes a stack. Click a stack and it springs from the Dock in either a fan or a grid. To open a file in a stack, click the file once.

Mac OS X Leopard includes two premade stacks called Documents and Downloads. You opened this file from the Documents stack. The Documents stack is a great place to keep things like presentations, spreadsheets, and word processing files. You can drag files to the stack or save them to the stack from an application.

Stacks automatically display their contents in a fan or a grid based on the number of items in the stack. You can also view the stack as a list. If you prefer one style over the other, you can set the stack to always open in that style.

Stacks intelligently show the most relevant items first, or you can set the sort order so that the items you use most most always appear at the top of the stack. To customize a stack, position the pointer over the stack icon and hold down the mouse button until a menu appears. Choose the settings you want from the menu.

To remove a file from a stack, just open the stack and drag the item out to where you want it. To delete a file, move it to the Trash. In fact, when you're done reading this document, feel free to throw it out.

TOWN OF STEPHENSON MARINETTE COUNTY TOWN HALL

SPECIAL TOWN BOARD MEETING UNAPPROVED

April 21, 2015

Chairman Kudick called the meeting to order at 6:45 pm. He led everyone in the Pledge of Allegiance. Roll call showed Chairman Kudick, Supervisors Kikulski, Lieuwen, Solway, and Stradal. Attorney Coggins, Treasurer Kempka, Clerk Olson and 19 others in attendance.

Supervisor Solway moved to adopt the agenda with the Class C wine license and the operator's licenses removed. Second by Supervisor Stradal. Carried.

Motion made by Supervisor Solway to grant the Class B liquor license for Sky Harbor 2 Go - Nelsen, Nelsen & Nelsen contingent to receiving the current Sellers permit. Supervisor Lieuwen offered a second. Motion carried.

Chairman Kudick asked if the Board would approve for the Little League to name the new field they play on. They would like to earn money by asking sponsors to pay to have their name on the field. Supervisor Kikulski moved to allow them to do so. Supervisor Lieuwen seconded. Supervisor Solway asked if they may want to put some kind of contingency on it. He would like to know that it will be an appropriate name. Attorney Coggins suggested having them present something to the Board and the board would have the ultimate decision on approving the name. Supervisor Kikulski amended his motion to include that verbiage. Supervisor Lieuwen seconded. Motion carried.

Motion to adjourn by Supervisor Solway was seconded by Supervisor Kikulski. All in favor. Adjourned at 6:49 pm.

Respectfully submitted,

Elaine Olson, Clerk

Autism

- Affects a person's ability to communicate and interact socially
- Is the fastest growing developmental disability in the U.S.
- Occurs in as many as 1 in 68 births
- Is more prevalent than Down syndrome, childhood diabetes, and childhood cancer combined
- Has an estimated annual cost of $90 billion

Did you know?

- There is no genetic marker or medical test for autism.
- It affects boys more than girls by a ratio of 4:1.
- The cause of autism is unknown, there is no cure.

There is room for hope and answers

- Autism can be diagnosed by age three sometimes as early as 18 months.
- There are evidence based treatments that help.
- Early diagnosis/intervention offers greater opportunity in life
- Adults with autism are capable of working in a wide range of jobs.

ORGANIZATION FOR AUTISM RESEARCH

The Organization for Autism Research (OAR) is a national non-profit that uses research to help families, educators, caregivers, and individuals with autism find answers to their immediate questions. OAR provides timely and relevant resources, funds studies that have the potential to enhance quality of life, and is an active partner in the autism community

OAR's mission is to apply research to the challenges of autism. To that end, it:

- Focuses on applied research—scientific examination that focuses on the challenges faced by children and adults with autism and their families
- Is the only autism organization with this exclusive focus

To give to OAR, please go to [donation link] or send checks made payable to OAR to: 2000 N. 14th Street Suite 240, Arlington VA 22201

23. Partial types

23.1 Partial declarations

A new type modifier `partial` is used when defining a type in multiple parts. To ensure compatibility with existing programs, this modifier is different than other modifiers. It is not a reserved keyword, and it is used to modify a type declaration only if it appears immediately before one of the keywords `class`, `struct`, or `interface`.

type-declaration:
*attributes*_{opt} *class-modifiers*_{opt} **`partial`** `class` *identifier type-parameter-list*_{opt}
*class-base*_{opt} *type-parameter-constraints-clauses*_{opt} *class-body* `;`_{opt}
*attributes*_{opt} *struct-modifiers*_{opt} **`partial`** `struct` *identifier type-parameter-list*_{opt}
*struct-interfaces*_{opt} *type-parameter-constraints-clauses*_{opt} *struct-body* `;`_{opt}
*attributes*_{opt} *interface-modifiers*_{opt} **`partial`** `interface` *identifier type-parameter-list*_{opt}
*interface-base*_{opt} *type-parameter-constraints-clauses*_{opt} *interface-body* `;`_{opt}

Each part of a partial type declaration must include the `partial` modifier and must be declared in the same namespace as the other parts. The `partial` modifier indicates that additional parts of the type declaration may exist elsewhere, but the existence of such additional parts is not a requirement as long as there is only a single declaration of a type that includes the `partial` modifier.

All parts of a partial type must be compiled together such that the parts can be merged at compile-time. Partial types specifically do not allow already compiled types to be extended.

Nested types may be declared in multiple parts by using the `partial` modifier. Typically, the containing type is declared using `partial` as well, and each part of the nested type is declared in a different part of the containing type.

The `partial` modifier is not permitted on delegate or enum declarations.

23.1.1 Attributes

The attributes of a partial type are determined by combining, in an unspecified order, the attributes of each of the parts. If an attribute is placed on multiple parts, it is equivalent to specifying the attribute multiple times on the type. For example, the two parts

```
[Attr1, Attr2("hello")]
partial class A {}

[Attr3, Attr2("goodbye")]
partial class A {}
```

are equivalent to a declaration such as

```
[Attr1, Attr2("hello"), Attr3, Attr2("goodbye")]
class A {}
```

Attributes on type parameters combine in a similar fashion.

BLACK OPS
Gerry. How are you doing this morning?

AGENCY
Never better, asshole.

BLACK OPS
Ah, you would never be one to succumb to Stockholm syndrome, would you?

AGENCY
Not likely.

BLACK OPS
Okay. Let me pull up a chair. We're gonna have a little chat. Catch you up a little in the day-to-day of Black Energy, LLC.

Black Ops grabs a chair from against a wall and brings it over in front of Agency. He sits on it backwards and sits face-to-face with him.

BLACK OPS
You have been on a business trip to Russia. Your family was notified that you would have no access to a phone or e-mail during this trip but that you would be back in a few days. That would be today. You will be released today.

AGENCY
But they know that I've talked with you, they won't believe, they won't let it go.

BLACK OPS
That is where you are wrong, Ger. I am now an employee. A subcontractor. This will be viewed as a debriefing.

How to write a Cover Letter

Street Address
City, State, Zip
Date

Name
Title
Name of Organization
Street Address
City, State, Zip
Dear Mr./Ms. _____

FIRST PARAGRAPH
Tell Why you are writing the letter (be clear about the position or type of position you are seeking). Attract the employer's interest by briefly touching on your specific knowledge of the company and/or position. Is this an inquiry or are you applying for a job? How did you find out about the position or the organization? If someone referred you, you may mention his/her name here. Give a brief statement demonstrating your specific interest in the organization/field.

MIDDLE PARAGRAPH(S)
Your middle paragraph(s) should communicate precisely what you have to offer the employer. Why do you want to work for this organization? How has your background prepared you for this position? Select your most relevant details and talk briefly on past experiences that relate to the position/organization at hand. Show the employer how your background matches the requirements of the job. Avoid vague statements; back up claims with specific examples. Refer to your resume. (Your middle paragraph(s) is critical to your success.)

CLOSING PARAGRAPH
Closure. Restate your interest and willingness to meet the employer. Elicit a response and/or mention that you will follow up with phone call if appropriate. Thank the employer for his/her time and consideration of your application/inquiry.

Sincerely
(4 spaces if mailed or faxed, 2 spaces if emailed)
(Handwritten signature if mailing or faxing)

Your typed name

NOTES

- *Sell yourself!*
- *State your case concisely*
- *Follow up with the employer*
- *Cover letters should be individualized for each employer*
- *Keep a copy for yourself*
- *Double check your grammar and spelling*
- *Have others proofread your work*
- *Cover letters are typically one page*

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord...so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known

to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere

Imprimatur
Most Rev. George W. Ahr
Bishop of Trenton

How Can I Test My Fax Machine?

You received a new fax machine and want to test it, but don't make sure it works. How can you be sure

Presumably you want to test your fax machine by sending a fax from it and receiving mine with it. Here's how to do both

To test the send functionality of your fax machine, send a one-page fax to 1-800-877-0455 (a toll-free number in the United States). When it's finished transmitting, point your web browser to Fax.Tar — it should first ask you to enter a fax number. While it submits, your fax should appear on the other end of the telephone line as a large number

To test the receive functionality of your fax machine, point your web browser to FaxZero.com and also have your friend fax this free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

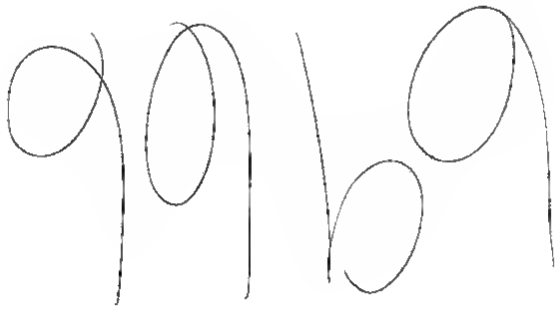
Happy Saturday

April 10th



When Jesus is first, the story of our lives will not only change but...

- There will be a fullness that we lack without Jesus
- There will be peace that we can't explain
- There will be a joy that is contagious
- Because of Jesus there will be thankfulness
- There will be a quiet strength
- When our roots grow deep, we will have answers for life's quandaries

As we contemplate these scriptures today

- Some may need to put Jesus First
- Some may need to begin to really follow
- Some may need to go deeper
- Some may need guidance and help on this course
- Some may need to commit to being in a growth group

Each of us is at a different place today, but recognizing Jesus First is a challenge each of us has to wrestle with

I prey God's Spirit has interrupted our thinking today—

- To consider what it is to put Jesus First
- To consider what it is grow deep and build our lives on Him

Kearon C Ginsberg JS Julian JA, et al. Comparison of fixed-dose weight-adjusted unfractionated heparin and low-molecular-weight heparin for acute treatment of venous thromboembolism. *JAMA*. 2006;296:935-942.

Abstract available at http://jama.ama-assn.org/cgi/content/full/296/8/935

Keywords: heparin, venous thromboembolism

DOI: 10.1177/1531003507301666

Commentary

The initial treatment of venous thromboembolism involves heparin therapy while transitioning to warfarin. Hospitalized patients can be treated immediately with intravenous heparin (80 U/kg bolus followed by 18 U/kg/h). Monitoring of the activated partial thromboplastin time (aPTT) and platelet counts is traditional with the aim of maintaining the aPTT 1.5 to 2.5 times control value. Low molecular weight heparin (LMWH) is used in both the hospital and outpatient settings. LMWH has a more predictable pharmacokinetic profile allowing once- or twice-daily weight-adjusted dosing without laboratory monitoring. The usual dose for treatment of deep vein thrombosis (DVT) and pulmonary embolism (PE) is 1.0 mg/kg subcutaneously twice daily. Several randomized trials and meta-analyses have showed equivalence of LMWH and intravenous unfractionated heparin in terms of bleeding risk and prevention of recurrent venous thromboembolism.

The advantage of LMWH is that it can be delivered as an outpatient treatment without monitoring, however it is significantly more expensive than unfractionated heparin. Kearon et al. hypothesized that treatment of venous thromboembolism with subcutaneous unfractionated heparin would be as effective and safe as LMWH at a considerable cost savings. They performed a randomized, open-label study in 708 patients and compared treatment with subcutaneous unfractionated heparin to LMWH until therapeutic warfarin levels were obtained. The primary outcome variables for the study were recurrent venous thromboembolism and bleeding.

This study included patients 18 years or older with venous thromboembolism and excluded patients who had contraindications to subcutaneous therapy, who had active bleeding, who had a life expectancy <3 months, who had already begun anticoagulation more than 48 hours, who were currently on long-term anticoagulation, who had contraindications to heparin, who had a creatinine level greater than 2.3 or who were pregnant. There were no exclusion criteria for patient weight. The dose of unfractionated heparin administered subcutaneously was 333 U/kg initially and then 250 U/kg every 12 hours. The use of concentrated unfractionated heparin (25 000 g/mL) allowed comfortable administration of small volumes (<1.0 mL) with a tuberculin syringe. Low molecular weight heparin (dalteparin or enoxaparin) was administered subcutaneously 1 mg/kg every 12 hours. The centers were not allowed to monitor aPTT levels during treatment with either unfractionated heparin or LMWH. Patients were assessed at 3 days, 1 month, and 3 months during treatment and were told to report immediately if symptoms of bleeding or recurrent venous thromboembolism occurred.

Patients randomized to treatment with either unfractionated or LMWH had similar baseline characteristics. Eighty percent of patients had symptomatic DVT without PE, 19% had symptomatic PE, and 1% had asymptomatic DVT. There

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Spiritual Smorgasbord

A current social phenomenon is that of individuals creating their own spiritual path combining beliefs and rituals from many religions, while ignoring the difficult laws and restrictions of any of those religions. They arrogantly pick and choose the tenets of each faith that suits their self-made morality and lifestyle while ignoring the more difficult or inconvenient ones. By refusing to submit to moral laws viewed as a restriction on their personal freedoms, they never grow in the spiritual strength gained through abstinence from material, sexual or substance addictions/compulsions. Because of our culture of status and materiel worship combined with the "if it feels good do it" philosophy of 60's and 70's psychology (our current cult), there are a lot of individuals who have merely substituted pseudo spirituality as their new drug of choice for feeling good, rather than actually being good or behaving with any moral compass.

Reminds one of the spoiled child refusing to obey her parents because she can't comprehend the reason why she can't have everything she wants whenever she wants it. Whereas the child that submits to the love and concern of a knowledgeable parent comes to understand and appreciate their reasoning years later when she is able function well in life. Recent sociological studies following children into adulthood have concluded that those who learn to control their impulses and defer gratification become more stable, successful and happy adults. Devotion and submission to God means you don't question the reasoning behind the "no-no's" before you choose to obey them, rather it is in following the laws that you reach the understanding.

It is not enough to simply pray, meditate, socialize with fellow seekers or dabble at religion to have inner peace and connect with God. Every spiritual path has laws requiring abstinence and submission as the way to build inner strength of spirit while creating the foundation for a stable life. It does not mean you have to become an austere monk, it does mean you become detached enough from material and worldly desires long enough to develop inner strength so that you can enjoy them later on in an appropriate, moderate context (for example, waiting for a stable marriage based on more than material desires or sexual attract on before having sex or children). Our cultural compulsion for instant and constant gratification has created this ever consumptive, self-obsessed, divorce-addicted society with millions of confused, angry and violent children as the result. Until one is free of one's compulsive behavior and worldly attachments, one cannot truly know God or grow spiritually, and neither will our culture.

Summary of the Family and Medical Leave Act of 1993

The *Family and Medical Leave Act of 1993* (FMLA) provides *eligible* employees to take up to 12 weeks of unpaid, job-protected leave in a 12-month period for specified family and medical reasons. National Defense Authorization Act 2008 (NDAA) amended the FMLA to allow eligible employees to take up to 12 weeks of job-protected leave in the applicable 12 month period for any "qualifying exigency" arising out of the fact that a covered military member is on active duty or has been notified of an impending call or order to active duty in support of a contingency operation. The FMLA was also expanded to allow eligible employees to take up to 26 weeks of job-protected leave in a "single 12-month period" to care for a covered servicemember with a serious injury or illness.

During this leave, an eligible Employee is entitled to continue group health plan coverage as if the Employee had continued to work. At the conclusion of the leave, subject to some exceptions, an Employee generally has a right to return to the same or to an equivalent position.

Eligibility Criteria

In order to be eligible for FMLA leave, an employee must have been employed by UniTek USA

- For at least 12 months (which need not be consecutive);
- For at least 1250 hours during the 12 month period immediately preceding the commencement of the leave; and
- At a worksite (a) with 50 or more Employees, or (b) where 50 or more Employees are located within 75 miles of the worksite.

Basic Leave Entitlement Events

An employer must grant up to 12 weeks of unpaid leave to eligible employees for one or more of the following reasons.

- Incapacity due to pregnancy, prenatal medical care or child birth;
- To care for the employee's child after birth or the placement of a child with the employee for adoption or foster care or to care for the newly placed child;
- To care for the employee's spouse, child, step-child, or parent (but not in-law) with a serious health condition; and/or
- The employee's own serious health condition. A "serious health condition" as defined herein.

Military Family Leave Entitlement Events

- Eligible employees with a spouse, son, daughter or parent on active duty or call to active duty status in the National guard or Reserves in support of a contingency operation may use their 12 week leave entitlement to address certain qualifying exigencies such as:
  - Short-notice deployment
  - Military events and related activities
  - Arranging alternative childcare

REEMPLOYMENT AND ELIGIBILITY ASSESSMENT APPOINTMENT NOTICE

FAILURE TO ATTEND THIS APPOINTMENT MAY AFFECT YOUR ELIGIBILITY TO RECEIVE UNEMPLOYMENT INSURANCE BENEFITS

You have been scheduled to attend a Reemployment and Eligibility Assessment (REA) interview. During this interview, the Employment Development Department (EDD) will review your efforts to seek work and provide information on appropriate services to assist you in returning to work as quickly as possible. Included is a Reemployment and Eligibility Assessment Questionnaire. You must bring this questionnaire completed to the interview. The questionnaire includes a recently filed, Work Search Questionnaire, where you must list your efforts to seek work for the two weeks prior to your appointment.

If you are unable to keep your appointment or are scheduled for a telephone interview during the same time as this appointment, call the EDD at one of the toll-free numbers listed above to discuss your eligibility. **Failure to attend this appointment may affect your eligibility to receive Unemployment Insurance benefits.**

During your appointment, you will have the opportunity to:

- Discuss your work search efforts.
- Receive labor market information specific to your job search and occupation.
- Learn about available resources and tools you can use in your work search.
- Learn about re-employment and re-training services available.

Reminder: You must add or update a résumé in the EDD CalJOBS℠ Internet job matching system prior to the appointment. You can access CalJOBS℠ at www.caljobs.ca.gov using any computer connected to the Internet. If you do not have access to the Internet, Internet access is available on computers at the EDD office address listed below. **FAILURE TO REGISTER IN CalJOBS℠ MAY AFFECT YOUR ELIGIBILITY TO RECEIVE UNEMPLOYMENT INSURANCE BENEFITS.**

If you receive other forms from the EDD you must complete and mail the forms as instructed.

Your Reemployment and Eligibility Assessment Appointment is on:

DATE 08/16/2012 **TIME 10:30 AM**

LOCATION OF YOUR APPOINTMENT IS

Sacramento Job Services
2901 50th St
Sacramento CA 95817

California law requires that all applicants for job services must provide documentary proof of legal status and authorization to work prior to receiving services. On the reverse is the list of acceptable documents. You must bring your documents to the interview.

CancerTYPE ID — Molecular Classification with CancerTYPE ID

FFPE Tissue Processing & Tumor Enrichment

- CancerTYPE ID requires as few as 300-500 viable tumor cells and is compatible with limited biopsy specimens such as FNAs, cytological specimens, and small core needle biopsies.
- CancerTYPE ID routinely employs laser guided microdissection to enrich for tumor specimen.

Gene Expression Profiling

- CancerTYPE ID uses a robust real-time RT-PCR platform to detect very small differences in gene expression.
- CancerTYPE ID measures and integrates the gene expression of 92 genes, 5 normalization genes and 87 lineage determinant and tissue-specific genes, most of which are not routinely measured by IHC.

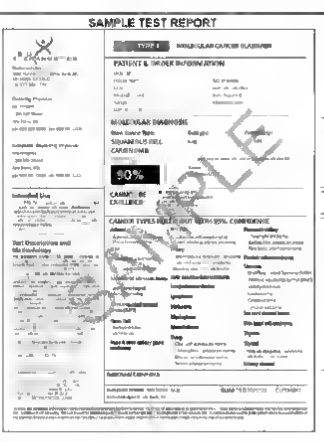
Reference Tumor Database & Algorithm

- CancerTYPE ID uses a computational algorithm to predict the patient's tumor type based on the degree of similarity of the sample's 92-gene expression profile to a reference database of gene expression profiles. The reference database contains gene expression information from over 2,000 tumor specimens of known histogenesis, and representing ~95% of all solid tumors based on incidence.
- The CancerTYPE ID algorithm provides a predicted main type and any sub-types in rank-order by relative probabilities, which are based on the tumor's gene expression similarity to tumors of these types in the reference database.

Molecular Classification

- CancerTYPE ID classifies 28 tumor types and 50 tumor subtypes.
- In an independent validation of 2998 blinded samples, the molecular diagnosis was 87% accurate for main tumor type and 86% accurate for tumor subtype.

SAMPLE TEST REPORT



Interpreting CancerTYPE ID Test Results

MOLECULAR DIAGNOSIS

The [redacted] molecular diagnosis is the CancerTYPE ID prediction of certain tumor subtypes. It is reported probability (≥ 80%), the tumor is reported as "Indeterminate", in this case, the test report will also indicate tumor types that can be ruled out (see below) that cannot be excluded.

CAN NOT BE EXCLUDED

When applicable, tumor types on the CancerTYPE ID reference database that share some gene expression profile similarity to the patient's sample such that they cannot be excluded. Item diagnostic consideration will be listed here in rank order.

RULE OUTS

The CancerTYPE ID test report also lists tumor types that can all be ruled out with 95% confidence. In an independent validation of 2998 blinded samples, the rule-outs were 95% accurate. This may provide useful differential diagnostic information when two or more potential tumor types are suspected and one or more tumors may be ruled out in the rule outs.

Congratulations! You are one of the first people to own a modem that incorporates the new V.92 standard.

The V.92 standard is an exciting new advancement in 56K technology. V.92 offers three new functions to enhance the current V.90 standard.

The first enhancement is the "V.PCM-Upstream" technology, which allows a modem's upstream communication to reach speeds of 48,000 bps. The V.90 standard limited upstream speeds to 31,200 bps.

The second enhancement is Quick Connect, which permits quicker dial-up connections by allowing the modem to remember the line conditions of a service provider that supports V.92. The first time that you connect with your service provider, the modem will perform the full training sequence and store the information it receives. This eliminates the need for the modem to go through the full training sequence during subsequent connection attempts, reducing the connection time by 30 - 50%. If the modem is unable to make an optimal connection any time after the initial attempt, the modem will perform the full training sequence.

The third enhancement is the "Modem On Hold" technology, which allows your Internal connection* to be suspended when there is an Inbound telephone call. You can then return to the connection when the call is completed without losing the connection. If you are connecting to a service provider that supports V.92, you will receive a message informing you of an incoming call.*† In addition, if you subscribe to Caller ID service, the number of the incoming call will be displayed in the computer's message window. You will then have the option to accept the call or to ignore it.

If you are connecting to a V.92 server and choose to accept the call, another message will appear notifying you of the length of time that the provider's system will wait on hold before the data connection is terminated. If you are connecting to a server that does not support V.92, you will receive a message informing you of an incoming call. You will then have the option to accept the call or to ignore it. If you choose to accept the call, your data connection will be terminated.

Included on the Installation CD is the ControlCenter software. The ControlCenter software allows you to easily configure the settings of your new V.92 modem and automatically notifies you of any updates to your modem's code. The manual for the ControlCenter software can be accessed through a link within the ControlCenter interface.

The new V.92 enhancements will not immediately be available with all service providers. To find out if you are able to achieve a V.92 connection, please refer to the following URL: www.usr.com/v92. Contact your service provider to find out when they will be updating their servers to include V.92 technology. This modem is backward compatible and will negotiate the highest possible speed when connecting to a service provider.

* You must subscribe to Call Waiting service with your phone company in order to use the "Modem On Hold" enhancement.
† If your incoming calls immediately forward to voice mail, you will not receive this message.

STEPS TO ENTER ELECTRONIC DEFROST CONTROL TEST MODE (IF APPLICABLE)

STEPS
A - POWER OFF TO REFRIGERATOR FOR AT LEAST 30 SECONDS
B - THERMOSTAT OFF
C - POWER ON TO REFRIGERATOR

ENTER "TEST" MODE

IN 3-5 SECONDS CONTROL WILL TURN ON DEFROST HEATER. DEFROST HEATER WILL TURN ON FOR 5 MINUTES OR UNTIL BI-METAL OPENS. TO TERMINATE TEST EARLY REMOVE POWER TO REFRIGERATOR.

NOTE: IF DEFROST HEATER DOES NOT TURN OFF AFTER 5 MINUTES OR BEFORE REPLACING DOORS, ALWAYS ALLOW COMPRESSOR RUNNING ADJUSTMENT. HELPFUL HINT: WHEN ENTERING TEST MODE, A RELAY TURNS ON THE COMPRESSOR AND TURNS ON THE DEFROST HEATER. LISTEN FOR THE RELAY TO CLICK. IF RELAY CLICKS ONCE WHEN ENTERING TEST MODE, CHECK FOR DEFROST HEAT. IF RELAY CLICKS TWICE, ALLOW UP TO 30 SECONDS BEFORE CLICKING. LISTEN FOR BI-METAL OPEN.

ATTENTION: IS BI-METAL IS BY-PASSED FOR TESTING (IF APPLICABLE), IT IS NOT OVERHEAT EVAPORATOR AREA.

STEPS TO EXIT "TEST" MODE
A - THERMOSTAT OFF 5 SECONDS
B - THERMOSTAT ON 5 SECONDS
C - REPEAT STEPS 1 AND 2 TWO MORE TIMES
D - THERMOSTAT OFF

BAFFLE MODULE DIAGNOSTIC TEST (IF APPLICABLE)

This diagnostic steps given below are for evaluating the Baffle Module. Steps 4 and 5 illustrate the settings and results. If the results listed do not occur after putting the controls in the given settings, then further in-depth diagnosis of the product is required. Possible areas to continue include wiring connections to all electrical components, freezer thermistor, defrost timer, baffle module, evaporator fan, condenser fan, and compressor.

STEP
1. VERIFY THAT THE PRODUCT IS NOT IN DEFROST.
2. OPEN THE REFRIGERATOR AND FREEZER DOORS SO THAT THE PRODUCT WARMS UP ENOUGH TO KEEP THE THERMISTATS
3. NOTE THE THERMISTAT SETTINGS. USE REFRIGERATOR CONTROL FOR FRONT ( ) AND REFRIGERATOR THERMISTAT ( ) FOR LEFT ( )
4. SET BOTH CONTROLS IN THE FOLLOWING MANNER. THEN ENTER FOR THE GIVEN RESULTS

CONTROL	SETTING
FREEZER THERMISTAT	COLDEST (FAN RIGHT)
REFRIGERATOR THERMISTAT	OFF (FAN LEFT)

COMPONENT	RESULTS
COMPRESSOR	NO INCREASE IN CYCLES
DEFROST HEATER	OFF
EVAPORATOR FAN	ON
CONDENSER FAN	ON

5. SET BOTH THERMISTATS IN THE FOLLOWING MANNER. THEN CHECK FOR THE GIVEN RESULTS

CONTROL	SETTING
FREEZER THERMISTAT	WARMEST (FAN RIGHT)
REFRIGERATOR THERMISTAT	COLDEST (FAN RIGHT)

COMPONENT	RESULTS
DEFROST HEATER	ON AFTER 30 MINUTES
COMPRESSOR	OFF
CONDENSER FAN	OFF
EVAPORATOR FAN	OFF

6. TEST COMPLETE - BAFFLE MODULE FOUND SET CONTROLS AT ANY SETTINGS AND REPLACE CONTROL SET FRONT LOWER.

29.4.1 FORCE_ALERT Message (Function Code 0x0409)

Command Class = 0x09	Command Type = 0x09	Function Code = 0x0409
Configurator = Device Host	Configured = Host	FORCE_ALERT

The FORCE_ALERT command generates an alert error condition in the device. This can be useful for testing Host error detection handling and also in preparation for a Core dump when the device did not issue a fatal alert message.

The FORCE_ALERT command can be used to generate a "fatal alert" that will flush the ARM caches, and also save important working data that would otherwise be lost during the Coredump process. (If at all, device RESET when using OSM_ENCAPS control.

The command takes a single 16 bit parameter, which specifies the Alert Type generated by the device. When preparing for a Core dump, it is recommended to use Alert Type 0x0024 which will fail generation and prevent (Alert Types are described in the Renfrew 29.4 Alert Diagnostic Indication Format, for page 226.)

Parameter 1 (FIFO Word 4) Alert Type to be generated

FIFO Word #	Description
4	Bits 15:0 **Alert Type to be Generated** Alert Type 0x0024 - Data Abort exception will be generated

29.5 Diagnostic Output Paths

Diagnostic messages and responses can be transferred between the Host Device and the Host using the FIFO API interface or the RMII Ethernet interface (see the Open Diagnostics and CRM_FIFO API).

Open diagnostics have the ability to be set redirect to a different output. Host option can map to the total four Host IP sessions, allowing each purpose one is terminal on when needed. With redirection, the diagnostics can be redirected to Ethernet over any where the desired information and the outcome easily routed to a designated an filer.

- Path 1: REDIRECT OVER OSM_ENCAPS or REDIRECT OVER IPUDP
- Path 2: POUP

29.5.1 Sequence for Configuring Unified Diagnostic Commands Example

SET_ETH_CONFIG – MAC and PHY Configurations first

- **SET_ETH_HDR_DEVICE** – MSB: Device Source MAC Address
- IP_SERVICE_DEFS – Required before SET_IP_HDR command.
- IP_ADDRESS – MSB Device Src IP Address
- ARP_SERVICE_CONFIG – option for Host
- NIF_SELECT – NIF of Ethernet interface to which Open Diags will be redirected
- REDIRECT OVER OSM_ENCAPS or REDIRECT OVER IPUDP
- SUPVSR_CREATE_CHANNEL

After the SUPVSR_CREATE_CHANNEL command, the "Enable diag" commands can be sent before or after setup any voice (VOPHAN) on a specific channel. If there is a requirement on the ongoing of a voice call, the "Enable diag" command must be sent before enabling voice on a specific channel.

Testing Your HP Fax Machine with the HP Fax Test Service

Print this Document Share Feedback

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service. Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the direct ions below.

NOTE: Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

NOTE: Whenever you troubleshoot a fax issue, it is good practice to set the Automatic Reports option to **Every Error** before initiating a test fax. That way, even if the send fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products; consult the product User's Guide for specific steps.

1. Send a one page black and white test fax to **1-888-hpfaxone** (1 888 473 2963).
2. When your fax is received by the HP Fax Fax Service, it will generate a return fax to the telephone number you are connecting the fax machine from. This return fax will confirm both send and receive via the fax with your fax machine.

If you do not receive a return fax within 5–7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE: The most common cause of fax errors is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also ensure that

To test the send functionality of your fax machine, send a one-page fax to 1 888-877 1655 (a toll-free number in the United States) When it s finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number Within a minute, your fax should appear on the site. Click the thumbnail to see a large version

To test the receive functionality of your fax machine, point your web browser to Fax/Zero this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

High School Graduation Requirements

Selecting Your High School Courses

Working with your parents and guidance counselor, you should have begun a process of focusing on career interests. By matching your career interests with a career theme at your school, you will find that your classes make more sense because you will be able to see the practical applications of what you are learning.

Whether you choose to enroll in a Career Academy, ROP, Tech Prep or opt for a general program, the high school curriculum is designed to prepare you for an entry level job and/or college entrance. Because requirements for both entry level jobs and college have become more rigorous, the basic requirements for graduation from high school have also become more rigorous.

Oakland Unified School District
High School Graduation Requirements
(OUSD Administration Bulletin 5012B)

These are the minimum requirements that you must complete in order to graduate. Four-year colleges may require additional coursework:

1. 230 credits in required subjects
(One semester course = 5 credits
One year course = 10 credits)

2. Grade Point Average (GPA) minimum 2.0

3. Senior Project

4. California High School Exit Exam required for Graduates beginning 2006

High School Grade Placement Requirements

You need:	80 credits for 10th grade standing
	110 credits for 11th grade standing
	170 credits for 12th grade standing

Required Subjects	Credits	Semesters
English or ELD	40	8 Sem.
Math	30	6 Sem. minimum including Algebra & Geometry
Science	30	2 Sem. A Physical Science 2 Sem. Biology (Life Science) 2 Sem. Selected Electives
World Cultures	10	2 Sem.
U.S. History	10	2 Sem.
AmerGov't/Economics	10	2 Sem. (5 credits each)
World Language *(Language other than English)*	10	2 Sem.
Visual Performing Arts	10	2 Sem.
Physical Education/ROTC	20	4 Sem.
Electives	80	12 Sem.
Subtotal	230 minimum	

Most students graduate with 240 or more credits
Students who are not passing core courses are expected to attend summer school. If you have questions, please meet with your guidance counselor.

to Exit 27 (I-495 West)

OR

b Take I-295 South (Baltimore-Washington Parkway)
to exit that reads 495/95 North Baltimore
(Yes I know you just came from the north, just take the exit, you will be fine)

For either option above, you will be heading in a west-south westerly fashion around the DC Beltway (I-495)

Follow the signs that say "I-495 West" (Northern Virginia) stay to your left once on I-495

I-495 to Exit 49 (I-66 West)

I-66 to Exit 43A (US29 South)

Stay to the right after exit and follow US55 West which is the next turn off to the right (between the Shell and 7-Eleven)

Go about a mile to Catharpin Road (first road on the right & first stoplight)
Make a right at Catharpin

Go about ¼ mile and on the left you will see a community subdivision (mainly woods until you see the subdivision)
Make a left into the Crossroads subdivision (Legend Drive)

Continue to the back of the complex and make a right on Forbes Place (single family home area, as opposed to Townhouses)

Go to the end of the street and make a left on Hollow Glen Court

Go to end of the block and we are the house you saw on the left "Corner" of Hollow Glen Court as it curved around the block (Wooden fence and deck) We are at 6800 Hollow Glen Court.

Radian measure and its Applications

You can measure angles in Radians

You need to be able to convert between degrees and radians

Degrees → Radians

$$1^c = \frac{180^\circ}{\pi}$$

Div de by $^{180}/_{\pi}$

Multiply by $^{\pi}/_{180}$

Convert the following angle to radians

$$150$$

Multiply by $^{\pi}/_{180}$

$$150 \times \frac{\pi}{180}$$

Only multiply the top here

$$\frac{150\pi}{180}$$

Simplify

$$\frac{5\pi}{6} rad$$

UNIVERSITY OF MICHIGAN-DEARBORN

TUITION AND FEES ADJUSTMENT PETITION GUIDELINES

POLICY

Exemption from payment of fees No exemption from the payment of fees shall be granted unless specifically approved in advance by the Board. Failure to fulfill financial obligations to the University may result in disciplinary action, including the withholding of degrees

NOTICE

The Registrar and the Vice Chancellor for Academic Affairs are authorized to make adjustments in the application of the policy stated above when in their judgment, unusual circumstances merit such action. Circumstances, which may warrant special consideration, include the death or serious illness of the student. The student who wishes to have his/her case reviewed must complete the following steps

1. Put your request in writing to the Registrar's Office via the attached form.

2. Under "Justification" on the attached form, clearly state why you believe you are entitled to an adjustment (include dates, semester, course names and a clear, concise explanation of the circumstances)

3. It is the student's responsibility to provide supporting documentation (doctor's statement, death or birth certificate, etc) All documentation must be the original and must be typed on letterhead paper

4. If you have had an Academic Standards Committee petition granted for the same term it does not necessarily mean that your tuition and fee petition will be granted

PERTINENT POINTS

1. Petitions must be submitted within 90 days from the end of term in which you are petitioning Except in rare and unusual circumstances, petitions will not be accepted after this time frame.

2. No action will be taken on a petition until the student has officially dropped or withdrawn from the course(s) in question.

3. Lack of knowledge regarding the policies and procedures that affect you is not a basis for approving any request

4. There is no guarantee that any petition will be approved

5. The Registrar's Office will respond to your petition in writing, in most cases, within 14 working days.

Weed Them Out! – Six Criteria for Software Vendor Selection

The technology marketplace has experienced a surge of software companies focusing on several real business problems and has created their unique value proposition in several markets like supply chain management (SCM) customer relationship management (CRM) enterprise resource planning (ERP) e-procurement, and now wireless Selecting an appropriate package software solution is not a trivial task given the number of vendors to choose from within each of these areas Expanding choices within the technology marketplace can make decisions difficult and confusing

The challenge Weeding out the vendors among hundreds of products philosophies and promises and making the right choice The criteria and methodology defined within this document are intended to provide the reader with six criteria to evaluate package software vendor solutions *Based on commonly considered generic software vendor selection requirements the evaluation criteria are intended to supplement--not supplant -the criteria identified by your individual organization*

Here are the six evaluation criteria

1 **Cost** The estimated relative expected expense associated with software solution capital investments operations/maintenance activities and training

2 **Flexibility** The degree to which architecture components are scalable and open to product or vendor heterogeneity based on widely accepted standards.

3 **Functionality** The degree to which the software solution satisfies functionality specific to an organization

4 **Ability to be Implemented** The degree to which the software system is mature understandable (based on commercial off-the-shelf software) and supportable by available skilled personnel

5 **Stability** The degree to which the software solution vendor is performing successfully within the technology marketplace (CRM SCM ERP etc.) and can be considered a viable business of competitive consequence

Usability The degree to which the architecture improves system and data usability while masking system complexities Criteria that can be used to evaluate alternative package software solutions and to identify a best-in-class solution are illustrated in *Figure 1* followed by descriptions of each and considerations.

A One-Day Seminar

Human Resources

for Anyone with Newly Assigned HR Responsibilities

A crash course covering key issues, basic laws and best practices

Build skills, confidence and know-how in just one information-packed, fast-paced day!

'New to HR'? Recently been asked to take on greater HR responsibilities?

When it comes to Human Resources, you've got to know your stuff.

Your organization and its employees are depending on you to provide accurate information, advice and answers on everything from government regulatory issues and benefits administration to the fine points of the employee handbook.

You've also got to be current on all the latest HR legal issues, be available as a knowledgeable resource for employees, be able to mediate internal conflicts and disputes and be prepared to hire and fire personnel as necessary.

You've got your work cut out for you, but we can help! For anyone who's new to HR or recently taken on HR commitments as part of their job, this training is an essential "crash course" in the basics!

This course will swiftly get you up to speed on all aspects of HR — from legal and compliance issues to hiring and firing, benefits administration, records keeping/retention and more! Course content includes:

- An HR legal primer on FLSA, EEO, FMLA, ADA and more
- Benefits basics including workers' comp, COBRA and exempt vs. non-exempt
- Record Keeping 101: What to save (and for how long), what to toss and what to shred
- Best ways to establish and maintain employee confidentiality
- The essentials of employee coaching, counseling and discipline
- Critical legal info about hiring and firing

100% Satisfaction Guarantee!

A&M Specialists and Specialty Transport Announce Merger

The two leading companies in automotive fleet management and event production, Specialty Transport and A&M Specialists, have announced a merger and consolidation effective December 15, 2008. The new company will operate under the name STI Fleet Services and will be headquartered in Redmond, WA.

The merger responds to current economic conditions by combining the only two national fleet management firms in an otherwise fragmented industry, a move that ensures continued quality service for customers while solidifying jobs and career paths for a growing number of employees. In addition, it provides a succession plan for A&M Specialists' owners Don and Merle Morton.

"Don and I feel that this is a natural evolution for our company and our employees to continue what we have built over the last 35 years," stated Merle Morton, A&M President.

The combined management team of STI Fleet Services is committed to make the merger transition seamless for both customers and employees.

COMMENTS: ""Fax from PC Test #1""

Our Father which art in heaven,
hallowed be thy name
thy kingdom come;
thy will be done
on earth as it is in heaven.
Give us this day our daily bread
And forgive us our trespasses
as we forgive them that trespass against us
And lead us not into temptation,
but deliver us from evil
[For thine is the kingdom,
the power and the glory,
for ever and ever]
Amen

Watch Before Use

We want to help you get up and running with your new coffee grinder FAST! So we made short videos that cover:

1. How to take apart and put your grinder back together without damaging the unit.
2. Cleaning demonstrations and hacks.
3. How to get great results from your grinder within minutes.

Watch these before use for the BEST results:

Recommended Safety & Care Tips

1. Keep away from children and pets.
2. To keep beans grinding smoothly, give it an occasional tap or shake during use.
3. If something gets stuck in the burr, DO NOT force the grind. Simply remove the container and

Giving Back

Fire HDX

From Wikipedia, the free encyclopedia

The **Fire HDX**, formerly named **Kindle Fire HDX**, is the high-end model in Amazon's Kindle Fire line of tablet computers. It was announced on September 25, 2013 and is available in two models, 7 inch and 8.9 inch. The 7 inch WiFi model was released on October 18, 2013 and the 8.9 inch WiFi model was released on November 7, 2013 in the United States.

In September 2014, Amazon released the second generation of the Fire HDX 8.9 model that has a faster processor and a more powerful graphics processing unit. In addition, the name 'Kindle" was removed from all of the Fire tablets names.
